Faisal Karim Kundi

Governor, Khyber Pakhtunkhwa

Higher Education; a demanding but a highly rewarding field of education system, plays a pivotal role in fulfilling the quest for bringing pleasant change in the socio-economic fabric of the society and ensures better future both for the country and the people. In the given circumstances, achieving this cherished goal indeed demands constant efforts, sustained determination and resources on the part of individuals, institutions and the society alike. In line with the desired targets one can witness an encouraging environment, enthusiastic approach, high spirit and a confident struggle at every level in the province.

It is indeed a pleasure to note that the Sarhad University of Science & Information Technology, Peshawar is engaged as an active partner along with its sister institutions, working both in the public and private sectors in the ongoing struggle to achieve the target set forth for the cause of education. The initiative to introduce demand driven, result oriented and contemporary disciplines, besides continuing research and educational activities in the existing institutions and infrastructure development for further expansion of the campus provides a heartening and convincing reason to judge the pace, with which it is progressing, is impressive.

While writing these lines for the Prospectus of Sarhad University, I also take the advantage to congratulate the management, faculty and students especially the new entrants for successfully stepping into their new pursuits and wish more success to all of them.

Muhammad Riaz Karim

President, Sarhad University

It is a matter of immense pleasure for me to record my message for prospectus 2026-27.

It is a unique imagination and a marvelous experience that a journey I started in the year 2001, is now unfolding its colors in many ways. The launching of Sarhad University with a humble start of programs in Computer Science, IT and Management Sciences from ab-initio was a gigantic task which I could not have accomplished alone. It was my team which worked with unmatched hard work and dedication as the resources were meager and the resolve to reach the students was unflinching.

It had been my life-long desire to reach and serve people from an area that desperately needed my services and contributions in the higher education sector. The Khyber Pakhtunkhwa province suited my objective more than any other neglected areas of Pakistan due to its close proximity to my base-station and the energetic segment of students of the province, who otherwise have all the potential to be in the driving seat. I chose education as my preferred objective and the young generation as my prime target as no society in the civilized world could ever progress without educating upcoming generations.

Dear students, Sarhad University with state-of-the-art buildings housing spacious classrooms, scientific and research laboratories, a huge library with latest books, Seminar Hall, dedicated parking space along with sports facilities is now fully functional to offer academic programs in various disciplines. In the wake of latest developments we have put in place a robust security system backed by CCTV cameras with recording facilities through DVR system, walk through gates and metal detectors to maintain a secured environment at the premises. The testimony to our success can be judged from the out-flow of our graduates who are currently serving in almost all the public departments at the provincial and national level. Beside, those many pursuing their higher studies at various International Universities.

As we enter the Academic Session 2026-27, I am delighted to share that Sarhad University is celebrating its Silver Jubilee, marking twenty-five years of dedicated service to higher education, research, and community development. What began in 2001 as a modest initiative with a few academic programs has today grown into a vibrant and respected institution producing graduates who are contributing effectively at national and international levels. This significant milestone reflects the collective efforts of our faculty, staff, students, alumni, and well-wishers whose trust and commitment have been instrumental in our success. To commemorate this historic achievement, the Prospectus 2026-27 has been published as a special "Silver Jubilee Edition", symbolizing a quarter-century of excellence and reaffirming our resolve to continue striving for academic distinction, innovation, and societal progress in the years ahead.

I would also like to extend my thanks to the students who opt to join Sarhad University to be in our fold for the coming 4-5 years with a pledge to work for their better education and settlement in their assignments.

Azmat Ali

Vice President, Sarhad University

I am happy to convey my message about Sarhad University which was established in the year 2001 with the sole objective of providing quality education at higher level according to the expectations of our youth. I would like to inform you that today, our university is placed in the highest category of HEC. We have worked round the clock over the last 25 years to achieve this level of excellence and proved ourselves in accordance with the expectations of all stakeholders. The University as of today is home to more than 8000 students in contemporary disciplines including Pharmacy, Nursing, Allied Health Sciences, Computer Sciences, Software Engineering, Management Sciences, Engineering, Art & Design, Humanities and Social Sciences. These programs are being supervised by more than 100 PhD, around 150 M.Phil/MS and MSc degree holders, having vast teaching and administrative experience. Our teaching departments are associated with the modern labs equipped with latest and up to date equipment required for the practical work of the students to gain hands on experience.

The Department of Pharmacy, Nursing and Allied Health Sciences are also linked with the major hospitals of Peshawar City for clinical rotation of the students to deal directly with the patients of their particular specialties.

This year marks a historic milestone in the journey of Sarhad University as we proudly celebrate the completion of twenty-five years of academic excellence, innovation, and service to society. The Academic Session 2026–27 coincides with the University's Silver Jubilee, commemorating a remarkable journey that began in 2001 and has since evolved into a distinguished institution of higher learning. In recognition of this landmark achievement, the Prospectus 2026–27 has been published as a special "Silver Jubilee Edition", reflecting the University's accomplishments, growth, and contributions over the past quarter century. This special edition stands as a symbol of our collective achievements and reaffirms our commitment to provide quality education, fostering research and innovation, and preparing future generations to meet the challenges of an ever-changing world.

I assure all students of my fullest support to educate them in the best possible manner so that they could prove their metal in their respective fields after graduation from Sarhad University.

Prof. Dr. Salim Ur Rehman

Vice Chancellor, Sarhad University

It is a privilege for me to be associated with such a progressive and rapidly developing university. During the last 25 years, Sarhad University has made landmark achievements in many areas. The Faculty size has increased manifold due to the induction of a number of PhD and M.Phil Degree holders in the field of Engineering, Pharmacy, Nursing, Management Sciences, Computer Science, Arts, Education and certain health-related disciplines. Our focus on quality education has enabled the students to acquire relevant knowledge and to become true professionals. Academic activities like conferences, workshops, and seminars have not only created an environment conducive for research, but have also added to the experience of our faculty and students. Our graduates, equipped with the right blend of knowledge and skills are prepared to carve their niche in the corporate world and to play their due role in socio-economic development of the country. I attribute our success in all these areas to the faculty, management and students whose devotion, hard work, sincerity, and determination have earned us high reputation and due recognition.

Selecting a particular degree program for stepping into professional life is one of the most crucial decisions. Equally difficult is the choice of an institution of higher learning to pursue the selected degree program. For those who have reached this decision making stage, Sarhad University offers various fields at its Main Campus in Peshawar, Sub Campus and the opportunity to learn through / distance education.

The Academic Session 2026–27 holds special significance for Sarhad University as we proudly celebrate the completion of twenty-five years of excellence in higher education. Our Silver Jubilee marks a remarkable journey of growth, innovation, and academic achievement that has transformed the University into a leading institution of learning and research. Over the past quarter century, Sarhad University has continuously expanded its academic offerings, strengthened its faculty, enhanced its research culture, and developed modern infrastructure to meet national and international standards. This special "Silver Jubilee Edition" of the Prospectus not only commemorates our achievements and contributions to society but also reflects our unwavering commitment to preparing future generations of professionals, researchers, and leaders who will contribute meaningfully to the development of Pakistan and the global community.

May Allah Almighty bless our youth and guide them in making right decisions, and enable the university management to give its best to the students.

Prof. Dr. M. Qasim Jan (HI, TI, SI)

Founding Vice Chancellor, Sarhad University

It fills my heart with immense joy and pride to witness Sarhad University of Science & Information Technology, Peshawar, celebrating its Silver Jubilee in September-2026. Twenty-five years ago, in 2001, when we embarked upon this journey with a modest beginning, we carried a simple yet powerful dream: to establish an institution that would blend scientific inquiry with technological innovation, rooted in the values of our culture and the demands of a changing world.

Standing today at this milestone, I see that our dream not only realized but surpassed. What began as a small flame of vision has, grown into a beacon of learning-illuminating the lives of thousands of students, contributing to research, and serving society with dedication.

I recall the early days with deep emotion - the challenges we faced, the trust placed in us by the Provincial Government, faculty, students, and the community, and the unwavering belief that quality education is the most powerful tool for transformation of the society. It is immensely satisfying to see how this institution has matured into a center of excellence, producing professionals, thinkers, and leaders who are making their mark across the country.

This Silver Jubilee is not merely a celebration of the years passed. It is a tribute to every teacher who taught with passion, every student who learned with curiosity, every staff member who served with sincerity, and every parent and supporter who believed in us.

As the founding Vice Chancellor, I extend my warmest felicitations to the entire Sarhad University family-past and present. May this university continue to rise, innovate, and serve as a lighthouse of knowledge for generations to come. May the next twenty-five years bring even greater accomplishments, guided by integrity, excellence, and a spirit of service.

Congratulations on this historic moment. Let us move forward with renewed vigor and commitment to the pursuit of truth and wisdom.

With warm regards and prayers,

Prof. Dr. Lutfullah Kakakhel

Former Vice Chancellor, Sarhad University

It is a matter of great pride and happiness for me to see Sarhad University of Science & Information Technology, Peshawar, celebrating its Silver Jubilee in September 2026. Twenty-five years of dedication is no small milestone—it is a testament to the resilience, vision, and collective effort of all those who have been part of this wonderful institution.

I had the privilege of serving as the second Vice Chancellor of the University from 2003 to 2004. Though my tenure was relatively short, those months were filled with purpose and passion. Guided by the conviction that a modern university must constantly adapt and grow, we introduced several academic reforms aimed at enhancing quality, relevance, and student opportunity.

During this period, we launched a number of new programs that I continue to look back upon with great satisfaction: Doctor of Pharmacy (Pharm-D), Bachelor in Sports Sciences, Biotechnology, and the Doctoral Program in Education were among those we introduced. These disciplines were forward-looking at the time and have since become core pillars of the university's strength in health and life sciences. Seeing how these programs have flourished and produced skilled graduates serving in various sectors fills me with immense joy.

I also recall the spirit of teamwork among the faculty, staff, and management—each one committed to building an institution that would stand tall in the region. Reforms in academic planning, laboratory development, and curriculum enrichment were all steps toward making Sarhad University a center of excellence.

Today, as you bring out this special prospectus on the Silver Jubilee, I extend my warmest felicitations to the entire Sarhad University family. To the current leadership, faculty, staff, and especially the students: you are the custodians of this legacy. Keep innovating, keep striving, and always remain true to the mission of knowledge, ethics, and service.

May Sarhad University continue to shine for another twenty-five years and beyond.

With heartfelt prayers and best wishes.

Department of Civil Engineering

Civil Engineering is known as an art of directing the great sources of power in nature for the use and convenience of human beings. Civil Engineering includes the research, development, planning, design, construction and maintenance associated with urban development, water supply, structure, energy generation and transmission, water treatment and disposal, and transportation systems. With the rapid increase in urbanization and industrialization, Civil Engineering has developed as a vibrant and challenging profession. Carving out meaningful careers in the arenas of building and managing infrastructures and sustaining environmental resources, civil engineers have to adopt the pace of technological change that could be an exciting and potentially rewarding challenge.

Vision

To establish a platform for producing Civil Engineers, imbued with leadership qualities and moral character, for the professional growth and sustainable development.

Mission

To provide high quality Civil Engineering education that is essential for undertaking professional challenges, enhancing, teamwork talents communication and inter-personal skills, and for providing a socially acceptable workable solutions through continuous life-long learning processes.

Eligibility Criteria:

Candidates who have passed intermediate (Pre-Engineering/ •Pre-Medical/ •Computer Science) from a recognized BISE in Pakistan with at least 60% unadjusted marks.

•The candidates with an intermediate Pre-Medical or Computer Science background have to study an additional course of remedial Mathematics and Chemistry, respectively, during the initial 1-2 Semesters, in accordance with PEC guidelines.

Candidates possessing 3-years Post-Matric Diploma of Associate Engineer in the relevant technology with at least 60% unadjusted marks.

Candidates possessing B-Tech (Hons) in the relevant field are also eligible for admission against the 2% reserved seats on open merit

All candidates are required to pass an entry test conducted by NTS / ETEA or any registered testing agency or University with at least 33% cumulative score.

Foreign candidates need to pass entry/aptitude test conducted by the University. For further details, see clause 4 in Admission Process.

Program Educational Objectives (PEOs) :

The following PEOs have been designed to address the requirement and expectations of various stakeholders, in accordance to the vision and mission of the Department of Civil Engineering.

PEO1 (Engineering Practice): Graduates will be knowledgeable and competent, and will play an effective role to meet the industrial requirements by providing best comprehensive solutions.

PEO2 (Professional Growth): Graduates will enhance learning through professional higher education and continued development of technical expertise.

PEO3 (Societal Service): Graduates will possess high moral and ethical values and will understand the principles of sustainable development.

PEO4 (Teamwork Abilities): Graduates will possess effective communication and inter-personal skills, along with teamwork abilities.

Outcome Based Education (OBE) System :

Outcome-based education (OBE) is an educational theory that bases each part of an educational system around the goals. By the end of the educational period, each student should have achieved the desired goals. The Department of Civil Engineering, at SUIT, has adopted Outcome Based Education (OBE) and Outcome Based Assessment (OBA) for its Bachelor of Civil Engineering Degree Program since 2015, as recommended by the Engineering Accreditation Board (EAB) of the Pakistan Engineering Council, to satisfy the requirements of the Washington Accord 2013. Currently, the framework of the Civil Engineering Degree Program at SUIT is set in accordance with the PEC Accreditation Manual 2019.

Program Learning Outcomes

PLO-01	Engineering Knowledge: Apply knowledge of mathematics, natural science, engineering fundamentals and engineering specialization to the solution of complex engineering problems. (WK-1-WK-4)
PLO-02	Problem Analysis: Identify, formulate, conduct research literature and analyse complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences and engineering sciences. (WK-1-WK-4)
PLO-03	Design/Development of Solution: An ability to design solutions for complex engineering problems and design systems, components or processes that meet specified needs with appropriate consideration for public health and safety, cultural, societal, and environmental considerations. (WK-5)
PLO-04	Investigation: Conduct investigation of complex engineering problems using research-based knowledge and research methods, including design of experiments, analysis, and interpretation of data, and synthesis of information to provide valid conclusions. (WK-8)
PLO-05	Tool Usage: Create, select and apply appropriate techniques, resources and modern engineering and IT tools, including prediction and modeling, to complex Engineering problems, with an understanding of the limitations. (WK-2 and WK-6)
PLO-06	The Engineer and the World: Analyze and evaluate sustainable development impacts to society, the economy, sustainability, health and safety, legal frameworks, and the environment while solving complex engineering problems. (WK-1, WK-5, and WK-7)
PLO-07	Ethics: Apply ethical principles and commit to professional ethics and norms of engineering practice and adhere to relevant National & International laws. Demonstrate an understanding of the need for diversity and inclusion. (WK-9)
PLO-08	Individual and Collaborative Team Work: Function effectively as an individual, and as a members or leader in diverse and inclusive teams and in multi-disciplinary, face-to-face, remote and distributed settings. (WK-09)
PLO-09	Communication: Communicate effectively and inclusively on complex engineering activities with the engineering community and with society at large, such as being able to comprehend and write effective reports and design documentation, and make effective presentations, taking into account cultural, language, and learning differences (WK-1 & WK-9)
PLO-10	Project Management and Finance: Demonstrate knowledge and understanding of engineering management principles and economic decision-making and apply these to one's own work, as a member & leader in a team, to manage projects in multidisciplinary environments. (WK-2 and WK-5)
PLO-11	Life-Long Learning: Recognize the need for, and have the preparation and ability for i) independent and life-long learning ii) adaptability to new and emerging technologies iii) critical thinking in the broadest context of technological change. (WK-8 and WK-9)

Hierarchical Model of Outcomes at SUIT

Department of Electrical Engineering

Keeping in view the importance and realizing the impact of the different branches of Electrical Engineering on the socio-economic growth of our country, Sarhad University decided to launch Electrical Engineering Degree Program. The Degree program is so designed that it provides an opportunity to the enrolled students to select and opt for studying the courses either in Power Engineering Group, Telecommunication Engineering Group or Electronics Engineering Group, depending upon the aptitude of the students which they may develop during their initial courses of the study, and / or most importantly, based on the market demand for a particular group of Electrical Engineering. During the first two years (4 Semesters) of the four year Degree program (eight Semesters), courses are offered which cover the common fundamentals of all the major fields in Electrical Engineering. However, in the next two years, emphasis is laid on specialized option with a view to enhance career prospects. For the last two years, courses are carefully designed in terms of Power, Electronics and Communication Groups of Electrical Engineering enabling students for better understanding of their areas of interest. The Bachelor Program in Electrical Engineering is accredited by the Pakistan Engineering Council.

Mission

To produce competent Electrical engineers with cutting-edge education and strong entrepreneurial, ethical, and lifelong learning competencies. The program aims to foster innovation and research to solve real-world challenges while promoting sustainable development nationally and globally.

Program Offered

- ♦ Bachelor of Science in Electrical Engineering

Faculty Members, Department of Electrical Engineering

Engr. Dr. M. Abid Saeed

Head / Associate Professor,
Ph.D Control Science Engineering,
Shanghai Jiao Tong University, China.

Mr. Mumtaz Khan

Associate Professor in Maths
M.Phil (Maths),
Strathclyde Uni, Glasgow UK

Engr. Saleh Lutfullah Kakakhel

Assistant Professor,
MS Electrical Engineering,
Sarhad University, Peshawar.

Engr. Noman Muslim

Assistant Professor,
MS Electrical Engineering,
Sarhad University, Peshawar

Engr. Syed Dildar Hussain Shah

Assistant Professor,
MS Electrical Engineering,
Sarhad University, Peshawar

Engr. Dr. Obaid Ur Rehman

Professor,
Ph.D Electrical Engineering,
Zhejiang University, China.

Engr. Dr. Anees ur Rehman

Associate Professor,
Ph.D Electrical Engineering,
Sarhad University, Peshawar

Engr. Shahid Alam

Assistant Professor,
M.Sc (Comm. & Elec. Engg.),
UET, Pesh

Engr. Mohsin Iqbal

Assistant Professor,
MS Electrical Engineering,
Sarhad University, Peshawar

Engr. Iftikhar Khan

Assistant Professor,
MS Electrical Engineering,
CECOS University, Peshawar

Dr. Azhar Ali

Associate Professor in Maths,
Ph.D Mathematics,
Islamia College University, Peshawar.

Engr. Muhammad Iqbal Khan

Assistant Professor / Coordinator,
MS Electrical Engineering,
Sarhad University, Peshawar

Engr. Muhammad Fahim

Assistant Professor,
MS Electrical Engineering,
Sarhad University, Peshawar

Engr. Fayaz Ahmad

Assistant Professor,
MS, Electrical Engineering,
Sarhad University, Peshawar

Engr. Syed Noman Shah

Lab Engineer,
BSc Electrical Engineering,
City University, Peshawar

Bachelor of Science in Electrical Engineering

Accredited by Pakistan Engineering Council (PEC)

Program Details:

Program Code	240
Number of Courses	45 Theory + 14 Lab + FYP
Credit Hours	138
Minimum Duration	8 Semesters, 4 Years
Maximum Duration	14 Semesters, 7 Years
Minimum CGPA Required To Earn Degree	2.00

Eligibility Criteria:

Candidates who have passed intermediate (Pre-Engineering/ •Pre-Medical/ •Computer Science) from a recognized BISE in Pakistan with at least 60% unadjusted marks.

•The candidates with an intermediate Pre-Medical or Computer Science background have to study an additional course of remedial Mathematics and Chemistry, respectively, during the initial 1-2 Semesters, in accordance with PEC guidelines.

Candidates possessing 3-years Post-Matric Diploma of Associate Engineer in the relevant technology with at least 60% unadjusted marks.

Candidates possessing B-Tech (Hons) in the relevant field are also eligible for admission against the 2% reserved seats on open merit

All candidates are required to pass an entry test conducted by NTS / ETEA or any registered testing agency or University with at least 33% cumulative score.

Foreign candidates need to pass entry/aptitude test conducted by the University. For further details, see clause 4 in Admission Process.

Program Educational Objectives (PEOs) :

The Department of Electrical Engineering at Sarhad University Peshawar has adopted the following three program educational objectives (PEOs). All of the PEOs have been devised keeping in view the vision and mission of the university and the professional requirements in the domain of Electrical Engineering. PEO's are aligned with United Nation SDG's.

PEO-1: Technical Proficiency and Problem Solving: Graduates will possess the knowledge to analyze, investigate, and solve complex engineering problems.

PEO-2: Leadership and Societal Impact: Graduates will be equipped to serve and lead for the socio-economic and environmental development of the country.

PEO-3: Lifelong Learning and Professional Development: Graduates will demonstrate a lifelong learning attitude, entrepreneurial, and soft skills with a strong commitment to ethical values.

Outcome Based Education (OBE) System :

OBE is an approach of curriculum design and teaching that focuses on what students should be able to do (attain) at the end of course/ program. The Undergraduate curriculum at Department of Electrical Engineering, Sarhad University was transformed into adopting OBE from Spring 2018 in accordance with requirements from Pakistan Engineering Council Accreditation Manual 2019 and to satisfy the requirements of Washington Accord 2013. The framework for OBE in the Electrical Engineering Department and the process control mechanism consists of four different phases i.e. design, assess, analyze and review. For each of the phases Program Educational Objectives (PEOs), Program Learning Outcomes (PLOs) and Course Learning Outcomes (CLOs), are defined.

Program Learning Outcomes

- PLO-01 Engineering Knowledge:** Apply knowledge of mathematics, natural science, engineering fundamentals and engineering specialization to the solution of complex engineering problems. (WK-1-WK-4)
- PLO-02 Problem Analysis:** Identify, formulate, conduct research literature and analyse complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences and engineering sciences. (WK-1-WK-4)
- PLO-03 Design/Development of Solution:** An ability to design solutions for complex engineering problems and design systems, components or processes that meet specified needs with appropriate consideration for public health and safety, cultural, societal, and environmental considerations. (WK-5)
- PLO-04 Investigation:** Conduct investigation of complex engineering problems using research-based knowledge and research methods, including design of experiments, analysis, and interpretation of data, and synthesis of information to provide valid conclusions. (WK-8)
- PLO-05 Tool Usage:** Create, select and apply appropriate techniques, resources and modern engineering and IT tools, including prediction and modeling, to complex Engineering problems, with an understanding of the limitations. (WK-2 and WK-6)
- PLO-06 The Engineer and the World:** Analyze and evaluate sustainable development impacts to society, the economy, sustainability, health and safety, legal frameworks, and the environment while solving complex engineering problems. (WK-1, WK-5, and WK-7)
- PLO-07 Ethics:** Apply ethical principles and commit to professional ethics and norms of engineering practice and adhere to relevant National & International laws. Demonstrate an understanding of the need for diversity and inclusion. (WK-9)
- PLO-08 Individual and Collaborative Team Work:** Function effectively as an individual, and as a members or leader in diverse and inclusive teams and in multi-disciplinary, face-to-face, remote and distributed settings.
- PLO-09 Communication:** Communicate effectively and inclusively on complex engineering activities with the engineering community and with society at large, such as being able to comprehend and write effective reports and design documentation, and make effective presentations, taking into account cultural, language, and learning differences (WK-1 & WK-9)
- PLO-10 Project Management and Finance:** Demonstrate knowledge and understanding of engineering management principles and economic decision-making and apply these to one's own work, as a member & leader in a team, to manage projects in multidisciplinary environments. (WK-2 and WK-5)
- PLO-11 Life-Long Learning:** Recognize the need for, and have the preparation and ability for
- independent and life-long learning
 - adaptability to new and emerging technologies
 - critical thinking in the broadest context of technological change. (WK-8 and WK-9)

Hierarchical Model of Outcomes at SUIT

Department of Mechanical Engineering

Mechanical engineering is one of the oldest and broadest of all engineering disciplines. Mechanical engineers design, analyze, and manufacture new products and technologies in order to address society's needs. Graduates of this program are employed by government agencies, multinational corporations, consulting firms, and universities. They can work in the areas of research, design, manufacturing, sales, quality assurance, and management.

Since launching the program in the year 2008, Sarhad University has developed the required facilities related to faculty, classrooms, library and laboratories, in accordance with the guidelines of the Pakistan Engineering Council.

It is possible for graduates of this program to specialize in the areas of mechanical engineering design, thermo-fluid systems, energy systems, air conditioning and refrigeration, manufacturing engineering, engineering management, mechatronics, building services, and micro and nano technologies.

Vision

To nurture academic and economic vitality through teaching, research, and outreach in the field of Mechanical Engineering in order to improve the quality of life.

Mission

To provide the students a high quality education in Mechanical Engineering and Allied disciplines to maintain a recognition through service to the National and International community.

Program Offered

Program Learning Outcomes (PLO's) / Graduating Attributes (GA's)

PLO-01	Engineering Knowledge: Apply knowledge of mathematics, natural science, engineering fundamentals and engineering specialization to the solution of complex engineering problems. (WK-1-WK-4)
PLO-02	Problem Analysis: Identify, formulate, conduct research literature and analyse complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences and engineering sciences. (WK-1-WK-4)
PLO-03	Design/Development of Solution: An ability to design solutions for complex engineering problems and design systems, components or processes that meet specified needs with appropriate consideration for public health and safety, cultural, societal, and environmental considerations. (WK-5)
PLO-04	Investigation: Conduct investigation of complex engineering problems using research-based knowledge and research methods, including design of experiments, analysis, and interpretation of data, and synthesis of information to provide valid conclusions. (WK-8)
PLO-05	Tool Usage: Create, select and apply appropriate techniques, resources and modern engineering and IT tools, including prediction and modeling, to complex Engineering problems, with an understanding of the limitations. (WK-2 and WK-6)

PLO-06	The Engineer and the World: Analyze and evaluate sustainable development impacts to society, the economy, sustainability, health and safety, legal frameworks, and the environment while solving complex engineering problems. (WK-1,WK-5, and WK-7)
PLO-07	Ethics: Apply ethical principles and commit to professional ethics and norms of engineering practice and adhere to relevant National & International laws. Demonstrate an understanding of the need for diversity and inclusion. (WK-9)
PLO-08	Individual and Collaborative Team Work: Function effectively as an individual, and as a members or leader in diverse and inclusive teams and in multi-disciplinary, face-to-face, remote and distributed settings.
PLO-09	Communication: Communicate effectively and inclusively on complex engineering activities with the engineering community and with society at large, such as being able to comprehend and write effective reports and design documentation, and make effective presentations, taking into account cultural, language, and learning differences. (WK-1 & WK-9)
PLO-10	Project Management and Finance: Demonstrate knowledge and understanding of engineering management principles and economic decision-making and apply these to one's own work, as a member & leader in a team, to manage projects in multidisciplinary environments. (WK-2 and WK-5)
PLO-11	Life-Long Learning: Recognize the need for, and have the preparation and ability for i) independent and life-long learning ii) adaptability to new and emerging technologies iii) critical thinking in the broadest context of technological change. (WK-8 and WK-9)

Department of Technologies

Technology can be a powerful tool for transforming learning. It can help affirm and advance relationships between educators and students, reinvent our approaches to learning and collaboration, shrink long-standing equity and accessibility gaps, and adapt learning experiences to meet the needs of all learners. The Department of Technologies focuses on students to prepare them as an efficient engineering technologist and to compose him/her professionally trained in certain aspects of development and implementation of a respective area of technology in order to boost industrialization, economic growth of society, and empower all students to be successful citizens of Pakistan.

Department of Technologies since its establishment is playing a vital role by providing outstanding graduates to the society and is acting as incubators of exploration and invention. The syllabus is continually under development and review as per HEC and NTC guidelines. We are collaborators in learning, seeking new knowledge and constantly acquiring new skills alongside our students. We have set a vision for creating learning experiences that provide the right tools and supports for all learners to thrive. We have state-of-the-art laboratories, library and other allied facilities where students can enhance their practical skills. Also, industrial/field visits are arranged on regular basis to boost and prepare the students for market.

Vision

Achieving excellence in Engineering Technology programs boosting professionalism and sustainable development.

Mission

To produce graduates capable of applying their technical knowledge and skills to serve the society with professionalism and ethical norms.

Programs Offered

- ♦ Bachelor of Engineering Technology (Civil)
- ♦ Bachelor of Engineering Technology (Electrical)
- ♦ Bachelor of Engineering Technology (Architectural)
- ♦ Bachelor of Engineering Technology (Mechanical)
- ♦ Bachelor of Engineering Technology (Information Security)

Faculty Members, Department of Technologies

Engr. Muhammad Faisal Khan
Director / Assistant Professor,
MSc Electrical Engineering (Power),
UET Peshawar

Arbab Muhammad Hamza
Lecturer in Architecture Program,
BS (Architecture),
CECOS University, Peshawar

Mr. Hasnain Ali
Assistant Professor / Coordinator,
MS Engineering Management,
Sarhad University, Peshawar

Mr. Zabih Ullah
Assistant Professor,
M-Tech Civil (Structure),
CECOS University, Peshawar

Bachelor of Engineering Technology (Civil)

Accredited by National Technology Council (NTC)

Program Details:

Program Code	276
Number of Courses	45 Theory + 25 Lab + Project + SIT
Credit Hours	138
Minimum Duration	8 Semesters, 4 Years
Maximum Duration	14 Semesters, 7 Years
Minimum CGPA Required To Earn Degree	2.00

Eligibility Criteria:

3 Years Diploma of Associate Engineer (DAE) from a recognized Technical Board with at-least 50% marks in any engineering discipline. Or F.Sc Pre-Engineering / ICS / •Pre Medical from any recognized Intermediate Board with at-least 50% marks or equivalent qualification. Or Fsc General Science with Mathematics, Statistics, and Computer Science.

•Pre Medical Students must pass Deficiency courses of Mathematics with in the first year of their regular studies.

Candidates need to pass an aptitude Test / Interview conducted by the university.

Program Mission:

To impart technical education and training for producing Civil Engineering Technologist capable of serving the society for sustainable development and professional growth.

Program Educational Objectives (PEOs) :

PEO 01: Specialized Knowledge: The graduates will have the knowledge, skills, and abilities to solve issues with modern technologies in the field of Civil Engineering Technology.

PEO 02: Industrial Technology: The graduates will have an effective communication and management abilities in order to meet industry's technology needs.

PEO 03: Responsible Technologist: The graduates will exhibit professional integrity and commitment to social and ethical responsibilities.

PEO 04: Professional Growth: The graduates will demonstrate professionalism and to nurture entrepreneurial and continuous professional development abilities.

Outcome Based Education (OBE) System :

OBE is an educational process that focuses on what students can do or the qualities they should develop after they are taught. OBE involves the restructuring of curriculum, assessment and reporting practices in education to reflect the achievement of high order learning and mastery rather than accumulation of course credits. It requires that the students demonstrate that they have learnt the required skills and contents.

The department has established an OBE committee to successfully implement OBE system. The committee is responsible for developing the CLOs (Course Learning Outcomes) for the courses and rubrics for Laboratories and Final Year Projects (FYP). Several training sessions and workshops were conducted to train the faculty members and lab engineers to be able to adopt OBE system.

Program Learning Outcomes (PLO's)

- PLO-01: Engineering Technology Knowledge:** An ability to apply knowledge of mathematics, natural science, Engineering Technology fundamentals and Engineering Technology specialization to defined and applied Engineering Technology procedures, processes, systems or methodologies.
- PLO-02: Problem Analysis:** An ability to identify, formulate, research literature and analyses broadly-defined Engineering Technology problems reaching substantiated conclusions using analytical tools appropriate to the discipline or area of specialization.
- PLO-03: Design/Development of Solution:** An ability to design solutions for broadly- defined Engineering Technology problems and contribute to the design of systems, components or processes to meet specified needs with appropriate consideration for public health and safety, cultural, societal, and environmental considerations.
- PLO-04: Investigation:** An ability to conduct investigations of broadly-defined problems; locate, search and select relevant data from codes, data bases and literature, design and conduct experiments to provide valid conclusions.
- PLO-05: Modern Tool Usage:** An ability to Select and apply appropriate techniques, resources, and modern technology and IT tools, including prediction and modeling, to broadly-defined Engineering Technology problems, with an understanding of the limitations.
- PLO-06: The Engineering Technologist and Society:** An ability to demonstrate understanding of the societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to Engineering Technology practice and solutions to broadly defined Engineering

Technology problems.

- PLO-07: Environment and Sustainability:** An ability to understand and evaluate the sustainability and impact of Engineering Technology work in the solution of broadly defined Engineering Technology problems in societal and environmental contexts.
- PLO-08: Ethics:** Understand and commit to professional ethics and responsibilities and norms of Engineering Technology practice.
- PLO-09: Individual and Team Work:** An ability to Function effectively as an individual, and as a member or leader in diverse teams.
- PLO-10: Communication:** An ability to communicate effectively on broadly defined Engineering Technology activities with the Engineering Technologist community and with society at large, by being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- PLO-11: Project Management:** An ability to demonstrate knowledge and understanding of Engineering Technology management principles and apply these to one's own work, as a member or leader in a team and to manage projects in multidisciplinary environments.
- PLO-12: Life-Long Learning:** An ability to recognize the need for, and have the ability to engage in independent and life-long learning in specialist Engineering Technologies.

Program Learning Outcomes (PLO's)

- PLO-01: Engineering Technology Knowledge:** An ability to apply knowledge of mathematics, natural science, Engineering Technology fundamentals and Engineering Technology specialization to defined and applied Engineering Technology procedures, processes, systems or methodologies.
- PLO-02: Problem Analysis:** An ability to identify, formulate, research literature and analyses broadly-defined Engineering Technology problems reaching substantiated conclusions using analytical tools appropriate to the discipline or area of specialization.
- PLO-03: Design/Development of Solution:** An ability to design solutions for broadly- defined Engineering Technology problems and contribute to the design of systems, components or processes to meet specified needs with appropriate consideration for public health and safety, cultural, societal, and environmental considerations.
- PLO-04: Investigation:** An ability to conduct investigations of broadly-defined problems; locate, search and select relevant data from codes, data bases and literature, design and conduct experiments to provide valid conclusions.
- PLO-05: Modern Tool Usage:** An ability to Select and apply appropriate techniques, resources, and modern technology and IT tools, including prediction and modeling, to broadly-defined Engineering Technology problems, with an understanding of the limitations.
- PLO-06: The Engineering Technologist and Society:** An ability to demonstrate understanding of the societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to Engineering Technology practice and solutions to broadly defined Engineering

Technology problems.

- PLO-07: Environment and Sustainability:** An ability to understand and evaluate the sustainability and impact of Engineering Technology work in the solution of broadly defined Engineering Technology problems in societal and environmental contexts.
- PLO-08: Ethics:** Understand and commit to professional ethics and responsibilities and norms of Engineering Technology practice.
- PLO-09: Individual and Team Work:** An ability to Function effectively as an individual, and as a member or leader in diverse teams.
- PLO-10: Communication:** An ability to communicate effectively on broadly defined Engineering Technology activities with the Engineering Technologist community and with society at large, by being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- PLO-11: Project Management:** An ability to demonstrate knowledge and understanding of Engineering Technology management principles and apply these to one's own work, as a member or leader in a team and to manage projects in multidisciplinary environments.
- PLO-12: Life-Long Learning:** An ability to recognize the need for, and have the ability to engage in independent and life-long learning in specialist Engineering Technologies.

Bachelor of Engineering Technology (Mechanical)

Accredited by National Technology Council (NTC)

Program Details:

Program Code	278
Number of Courses	42 Theory + 27 Lab + Project + SIT
Credit Hours	139
Minimum Duration	8 Semesters, 4 Years
Maximum Duration	14 Semesters, 7 Years
Minimum CGPA Required To Earn Degree	2.00

Eligibility Criteria:

3 Years Diploma of Associate Engineer (DAE) from a recognized Technical Board with at-least 50% marks in any engineering discipline. Or F.Sc Pre-Engineering / ICS / *Pre Medical from any recognized Intermediate Board with at-least 50% marks or equivalent qualification. Or Fsc General Science with Mathematics, Statistics, and Computer Science.

*Pre Medical Students must pass Deficiency courses of Mathematics with in the first year of their regular studies.

Candidates need to pass an aptitude Test / Interview conducted by the university.

Program Mission:

To impart technical education and training for producing Mechanical Engineering Technologist capable of serving the society for sustainable development and professional growth.

Program Educational Objectives (PEOs) :

PEO 01: The graduates will have knowledge, skills, and abilities to solve issues with modern technologies.

PEO 02: Technically qualified graduates with effective communication, management abilities, and entrepreneurial skills in order to meet industry's technological needs.

PEO 03: The graduates will exhibit professional integrity and commitment to social and ethical responsibilities to make a positive contribution towards the society.

Outcome Based Education (OBE) System :

OBE is an educational process that focuses on what students can do or the qualities they should develop after they are taught. OBE involves the restructuring of curriculum, assessment and reporting practices in education to reflect the achievement of high order learning and mastery rather than accumulation of course credits. It requires that the students demonstrate that they have learnt the required skills and contents.

The department has established an OBE committee to successfully implement OBE system. The committee is responsible for developing the CLOs (Course Learning Outcomes) for the courses and rubrics for Laboratories and Final Year Projects (FYP). Several training sessions and workshops were conducted to train the faculty members and lab engineers to be able to adopt OBE system.

Department of Pharmacy

The Department of Pharmacy, Faculty of Life Sciences, Sarhad University acknowledges pharmaceutical care as an evolving mode of pharmacy practice in which the pharmacist in consultation with other health professionals, takes an active role on behalf of patients in making appropriate drug choices, by effecting distribution of medications to patients, and by assuming direct responsibilities to empower patients to achieve the desired outcomes of drugs and related therapy.

Pharm-D program of the Department provides educational preparedness, so as to enable a student to collaborate with other health professionals and to share responsibility for outcomes of drug and related therapy. Pharm-D program promotes the knowledge, skills, abilities, attitudes and values necessary for the provision of pharmaceutical care for general practice of pharmacy in any setting. The Department of Pharmacy also assures an understanding of pharmaceutical care by its students early in the professional program in pharmacy. The philosophy of practice as well as the necessary professional attitudes, ethics, and behaviors are evolved during the course of study. Moreover, Pharm-D program ensures the provision of a positive outlook for all aspects of pharmacy practice. In long and short, the Pharm-D program is based upon scope, depth and proficiency of knowledge, skills, and judgment acquired. The curriculum of Pharm-D adopted by our Department is in-line with the curriculum proposed by Pharmacy Council of Pakistan and approved by HEC, which provides the students with enhanced core of professional knowledge and skills through enrichment of the Biomedical Sciences, Pharmaceutical Sciences, Physical Sciences, and Clinical Sciences through practice and experience. The curriculum prepares students to be practitioners with maturity in clinical, hospital, community, and industrial practice of pharmacy.

Vision

To become a globally recognized center of excellence in research driven pharmacy education, empowering graduates to lead innovations and improve health care outcomes at national and international level.

Mission

To prepare pharmacy graduates with advanced scientific knowledge, technical proficiency and ethical awareness to excel in pharmaceutical design, manufacturing and clinical applications, while, fostering research and innovations to address contemporary health care challenges.

Sarhad Institute of Allied Health Sciences

In the present health care system, the health service revolves around the doctors, nurses, and health technicians. The technician is diploma holders having very limited skills and knowledge and for below requirements to influence the health care delivery effectively. The need was felt by the authorities concerned that a cadre of professionals be produced having enhanced knowledge, skill and behaviors that should be able to add to health care delivery systems effectively and improve the services provisions in the country generally and in the province of Khyber Pakhtunkhwa specially.

The idea was conceived to have an institute producing technologists to meet the requirement. As a result, the Sarhad Institute of Allied Health Sciences (SIAHS) was established in January 2021 as a constituent institute of Sarhad University of Sciences and Information Technology to meet the perceived idea and offered BS Programs having 8 semesters (4 Years) in Health, Dental, Medical Imaging, Surgical, Anesthesia, and Human Nutrition and Dietetics Technologies. In Fall-2022, BS Programs of Optometry and Cardiac Care Technology were offered. In Fall 2024 Enrollment in BS Emergency & Intensive Care Technology was allowed. In Fall 2026, admission in Renal Dialysis Technology and Aesthetics & Skin Care Technology will be offered. The institute has special emphasis on character building, and awareness on medical ethics so that a cadre of empathetic professionals be produced and could be able to adopt ethical approaches in the health care positions.

Vision

To produce qualified Health Professionals to deliver at national and international level.

Mission

Producing qualified Health Professional in their respective disciplines and enable them to serve the ailing humanity by applying modern teaching / learning strategies to improve the health care system of the country in General and Khyber Pakhtunkhwa in Particular.

Programs Offered:

- ♦ Doctor of Physiotherapy (DPT)
- ♦ Bachelor of Science in Anesthesia Technology
- ♦ Bachelor of Science in Cardiac Care Technology

Eligibility Criteria:

- ◆ **4 Years:** Candidates with HSSC (Pre-Medical/Pre Engineering/Food related subject/DAE in food related subjects) or A-Levels with equivalency certificate from IBCC Islamabad with at least 50% marks are eligible to apply.
Candidate with Diploma in relevant field with at least 50% marks in annual system or 2.00 CGPA on the scale of 4.00 in semester system with equivalency certificate from IBCC Islamabad are eligible to apply.
- ◆ **2.5 Years:** The candidates holding Associate Degree in non-relevant Allied Health disciplines with at least 50% marks in annual system or at least 2.00 CGPA on the scale of 4.00 from any recognized university/DAI, he will be allowed to take admission in 2.5 years track subject to departmental approval. In such cases he or she will attend the Bridge Semester of the same discipline and will follow the scheme of study from 5th till 8th semester.
- ◆ **2 Years:** Candidates holding Associate Degree in Human Nutrition & Dietetics or Equivalent degree with at least 2.00 CGPA on the scale of 4.00 from any recognized university/DAI will join from the 5th semester of their degree program. The candidate will study more credit hour's than he has studied in his previous university/DAI.

Candidates will have to appear in an entry test / interview to be conducted by any registered Testing Agency or University.

Program Learning Objectives:

- ◆ To abreast the students with a deep understanding of Anatomy, Physiology, Pharmacology and Biochemistry especially relevant to the field of nutrition and dietetics which is intake of food, its absorption, assimilation and utilization by the human body.
- ◆ To impart the student the knowledge of good nutrition important for the normal growth, development, delaying aging, healthy pregnancy outcomes, maintaining a healthy body and reducing the risks of chronic diseases leading to overall health of wellbeing.
- ◆ To develop the fundamental education of nutrition in order to help the individuals to establish food habits and practices that are consistent with the nutritional needs of the body and adopted to the cultural patterns and food resources in the area in which they live.
- ◆ To prepare the graduates for leadership roles and continuous professional developments in the field of nutrition, engaging themselves in research, education and advocacy.
- ◆ To enhance the students understanding of professional and ethical standards, emphasizing patients' safety, quality assurance and effective communication within the nutrition and dietetic team.

Program Learning Outcomes:

- ◆ Graduates will be able to demonstrate the knowledge of human structure, its functions and intake of food, digestion, its absorption, assimilation, utilization and disease process.
- ◆ Graduates will exhibit the knowledge regarding nutritional assessment techniques, skills and attitude necessary to diagnose health problems due to consumption of non-optimal quantities of the nutrients.
- ◆ Graduates will grasp the knowledge about the microbial contamination of foods and factors effecting the growth of microorganisms leading to food born infections, intoxications and role of probiotics in our daily life.
- ◆ Graduates will adhere to the highest ethical standards demonstrating professionalism, effective communication and commitment to patient safety and quality care.
- ◆ Graduates will play leadership role in the field of nutrition and dietetics, engaging themselves in continuous learning, research and advance proposal in the field to improve patient outcome.

Program Learning Objectives:

The Vision Sciences department has been developed to provide access to undergraduate education in a diverse range of specialties in the field of Optometry. The students will carry out full eye examinations and gain specialist skills such as pediatric, binocular vision, contact lens and dispensing. In addition, they will examine patients with a range of eye diseases and gain experience in dispensing spectacles.

The key purpose of the program is to provide optometrists with up-to-date research-based clinical and theoretical knowledge of a wide range of fields, particularly in primary care optometry. Emphasis is placed on 'share-care' or 'co-management' of patients with other medical disciplines and the expansion of the optometrist's role in ocular therapeutics.

The program integrates clinical and theoretical knowledge, making extensive use of expert practitioners. The program enables optometrists to continue development and accumulation of knowledge and expertise relating to ocular health care and vision science during their professional careers.

Program Learning Outcomes:

- At the end of 4 years program, student should have basic knowledge and skills required to work as an optometrist and are supposed to have the following performance capabilities.
- ◆ Able to differentiate / detect normal and abnormal eyes.
 - ◆ Able to take history of the patient with refractive errors
 - ◆ Able to examine the anterior segment of the eyes prescribe eye glass
 - ◆ Able to perform screening for refractive error
 - ◆ Able to carry out basic optometric procedures
 - ◆ Able to have basic knowledge about various diagnostic optometric procedures
 - ◆ Able to educate patients regarding eye care
 - ◆ Able to carry out basic contact lens fitting low vision & orthotics assessment
 - ◆ Able to initiate research in the area of optometry

Bachelor of Science in Renal Dialysis Technology

Recognized by Allied Health Professionals Council (AHPC)

Program Details:

Program Code	296
Number of Courses	50 + 4 SCP + Internship + Capstone Project
Credit Hours	140
Minimum Duration	8 Semesters, 4 Years
Maximum Duration	12 Semesters, 6 Years
Minimum CGPA Required To Earn Degree	2.00

Program Learning Objectives:

- ◆ The Bachelor of Science in Renal Dialysis Technology is a four-year undergraduate degree program designed to prepare competent, knowledgeable, and skilled dialysis technologists to support the diagnosis, treatment, and long-term management of patients with acute and chronic kidney diseases.
- ◆ The program provides students with a strong foundation in basic medical sciences along with specialized training in renal physiology, dialysis technology, and clinical practice.
- ◆ The program aims to produce highly qualified dialysis professionals through a structured curriculum, experienced faculty, modern teaching methods including video-based demonstrations, and extensive supervised clinical training in advanced dialysis setups.
- ◆ Graduates will be equipped with the technical, clinical, and professional skills required to contribute effectively to patient care, technical services, and healthcare education at both national and international levels.

Eligibility Criteria:

- ◆ Candidates with HSSC (Pre-Medical / Relevant Technology) or A-Levels with equivalency certificate from IBCC Islamabad with at least 50% marks are eligible to apply.
- ◆ Candidate with Diploma in relevant field with at least 50% marks in annual system or 2.00 CGPA on the scale of 4.00 in semester system with equivalency certificate from IBCC Islamabad are eligible to apply.
- ◆ Candidates will have to appear in an entry test to be conducted by any registered Testing Agency or University.
- ◆ Candidates will appear in an interview to be conducted by the University.

Program Outcomes:

The completion of the Bachelor of Science in Renal Dialysis Technology program, the graduates will be able to:

- ◆ Demonstrate in-depth knowledge of renal and dialysis sciences, both in their fundamental concepts and in their application in healthcare institutions.
- ◆ Apply relevant professional knowledge, technical skills, and ethical values in clinical practice.
- ◆ Perform dialysis procedures in different dialysis setups in tertiary care hospitals.
- ◆ Demonstrate positive attitudes and professional behavior toward all personnel and patients.
- ◆ Apply basic research skills to understand and conduct research.
- ◆ Use English language, computer, and communication skills effectively in professional settings.

Maximum Duration	12 Semesters, 6 Years	9 Semesters, 4.5 Years	8 Semesters, 4 Years
Minimum CGPA To Earn Degree	2.00	2.00	2.00

Eligibility Criteria:

- ◆ **4 Years:** Candidates with HSSC (Pre-Medical / Relevant Technology) or A-Levels with equivalency certificate from IBCC Islamabad with at least 50% marks are eligible to apply.
Candidate with Diploma from any Medical Faculty in relevant field with at least 50% marks in annual system or 2.00 CGPA on the scale of 4.00 in semester system with equivalency certificate from IBCC Islamabad are eligible to apply.
- ◆ **2.5 Years:** The candidates holding Associate Degree in non-relevant Allied Health disciplines with at least 50% marks in annual system or at least 2.00 CGPA on the scale of 4.00 from any recognized university/DAI, he will be allowed to take admission in 2.5 years track subject to departmental approval. In such cases he or she will attend the Bridge Semester of the same discipline and will follow the scheme of study from 5th till 8th semester.
- ◆ **2 Years:** Candidates holding Associate Degree in Relevant Technology with at least 2.00 CGPA on the scale of 4.00 from any recognized university/DAI will join from the 5th semester of their degree program. The candidate will study more credit hours than he has studied in his previous university/DAI. Candidates will have to appear in an entry test / interview to be conducted by any registered Testing Agency or University.

Program Learning Objectives:

- ◆ To have in-depth knowledge of Anatomy, Physiology, Biochemistry and Pathology of human body.
- ◆ To enable the students to have necessary technical skills to manage & maintain the OT cleanliness & sterilization of surgical instruments.
To enable the students to look after the sucker machines etc. They are also trained to prepare surgical trolley according to the due surgical procedure for optimal patient care.
- ◆ To inculcate ethical principles and professional standards in students making them useful members of the surgical team.
- ◆ To keep abreast with academic research to have new knowledge undergoing in the field.

Program Learning Outcomes:

- ◆ Graduates will demonstrate in-depth knowledge of Anatomy, Physiology, Biochemistry and Pathology of human body.
- ◆ Graduates will exhibit proficiency to manage & maintain the OT cleanliness & sterilization of surgical instruments and maintenance of the sucker machines etc. They are also able to prepare surgical trolley according to the due surgical procedure.
- ◆ Graduates will adhere to the highest ethical standards demonstrating professionalism, effective communication and commitment to patient safety and quality care.
- ◆ Graduates will be able to work as an effective member of surgical team.
- ◆ Graduates will engage in continuous professional development in the field of surgery to improve patient care.

Program Learning Objectives:

The Bachelor of Science in Aesthetic and Skin Care Technology (Allied Health Sciences) program is designed in accordance with the provisions of the HEC Undergraduate Education Policy V 1.1. to provide students with a comprehensive understanding of skin care science and clinical techniques. The program integrates knowledge across key areas such as skin anatomy, cosmetic procedures, product management, and client consultation, equipping students with the skills necessary for clinical practice, research, and further academic pursuits in aesthetic and skin care technology and related fields. Spanning eight semesters, the curriculum offers a balanced and progressive learning experience. Throughout the course of this degree program, students will gain hands-on experience with skin care equipment, treatment techniques, and safety measures essential for professional practice. This program prepares students to effectively manage aesthetic treatments and provide client care in clinical settings, positioning them for careers in spas, clinics, wellness centers, and the cosmetics industry, both within Pakistan and internationally.

Program Outcomes:

By the completion of Bachelor of Science in Aesthetic and Skin Care Technology (Allied Health Sciences) program, the graduates will be able to:

- ◆ Apply scientific principles and techniques to provide safe and effective skin care treatments.
- ◆ Assess client needs, develop treatment plans, and provide personalized aesthetic services in a professional and ethical manner.
- ◆ Utilize latest technologies and products in the field of aesthetic and skin care to enhance treatment outcomes and promote client satisfaction.

Faculty of Sciences, Computer Science & IT

In the scientific fields of this century, revolutionary interdisciplinary research and teaching activities necessitate a visionary role of educational institutions. The faculty has been established to meet this pressing need. We are building upon the scientific tradition in new ways to enhance the educational experience of our students while developing links with business and industry. Efforts have been made to transform the scientific understanding into ways of enriching human experience in the modern world. In the classrooms, our teachers prepare students for leadership roles in scientific fields by providing them sound foundations. We hope that more and more aspiring students would involve themselves in our exciting and important endeavors to change the world for the better through application of the acquired knowledge.

Department of **Computer Science & IT**

Vision

To be a nationally and internationally recognized hub of excellence in computing education, research, and innovation, producing globally competitive, ethical, and computing-driven professionals who drive technological advancement, digital transformation, and sustainable societal impact for the betterment and productivity of society at large.

Mission

The Department of Computer Science and IT provides high-quality, outcome-based, and ethical education and research in computing disciplines. To produce graduates with strong theoretical foundations, advanced practical skills, and lifelong learning capabilities. The department fosters innovation, professional conduct, teamwork, and effective communication, preparing graduates to design secure, intelligent, and sustainable solutions addressing industrial, national, and societal challenges.

Programs Offered:

- ♦ Bachelor of Science in Computer Science
- ♦ Bachelor of Science in Software Engineering
- ♦ Bachelor of Science in Data Science
- ♦ Bachelor of Science in Cyber Security
- ♦ Bachelor of Science in Artificial Intelligence

University of Peshawar

Islamabad Campus

Mr. Mehmood Ul Hassan
Head of Department,
MS Computer Science,
Federal Urdu University, Islamabad

Mr. Wajih Ullah
Lecturer (Jr),
BS Physics,
Gomal University D.I Khan

Dr. Aasam Abdul Karim
Assistant Professor,
PhD Computational Intelligence,
University Sains, Malaysia

Ms. Aleeza Ishaq
Junior Lecturer,
BS Computer Science,
University of Haripur

Mr. Asad Khan
Lecturer,
M.Phil Software Engineering,
IIU, Islamabad

Bachelor of Science in Computer Science

Accredited by National Computing Education Accreditation Council (NCEAC)

Program Details:

Program Code	001
Number of Courses	43 Theory + 14 Lab + FYP
Credit Hours	130
Minimum Duration	8 Semesters, 4 Years
Maximum Duration	12 Semesters, 6 Years
Minimum CGPA Required To Earn Degree	2.00

Eligibility Criteria:

Intermediate (Pre-Engineering/ Computer Science/* Pre-Medical) with at least 50% Marks or A-Levels with equivalent certificate from IBCC Islamabad or an equivalent certificate from a recognized institution.

*Pre-Medical students must pass deficiency course of Mathematics of 6 Credit Hours with in the first year of their regular studies.

Depending on university policy, applicants may also be required to pass an entry or aptitude test and appear in an interview or additional screening if required.

Program Educational Objectives:

PEO 1 Computing Foundation: Graduates will possess a strong academic foundation and analytical skills to solve complex computing problems, leveraging comprehensive computer science knowledge.

PEO 2 Professional Growth: Graduates will excel in designing and developing innovative computing solutions using modern tools and technologies, while effectively working both independently and as part of diverse teams.

PEO 3 Societal Responsibility: Graduates will demonstrate effective communication skills, uphold ethical standards and professionalism, contribute positively to society, and engage in life-long learning to adapt to evolving technological advancements.

Graduate Attributes:

GA-1: Academic Education: Completion of an accredited program of study designed to prepare graduates as computing professionals.

GA-2: Knowledge for Solving Computing Problems: Apply knowledge of computing fundamentals, specialization, mathematics, science, and domain knowledge to abstraction and conceptualization of computing models.

GA-3: Problem Analysis: Identify and solve complex computing problems reaching substantiated conclusions using principles of mathematics, computing sciences, and relevant domain disciplines.

GA-4: Design/Development of Solutions: Design and evaluate solutions for complex computing problems; design systems, components, or processes that meet specified needs.

GA-5: Modern Tool Usage: Create, select, or adapt and apply appropriate techniques, resources, and modern computing tools to computing activities while understanding their limitations.

GA-6: Individual and Teamwork: Work effectively as an individual, as a team member, or a leader in multidisciplinary settings.

GA-7: Communication: Communicate effectively (oral, written, and graphical) with a variety of audiences.

GA-8: Project & Time Management: Demonstrate project planning, management, and execution within time, resource, and organizational constraints.

GA-9: Ethics: Understand and commit to professional ethics, responsibilities, and norms of computing practice.

GA-10: Life-long Learning: Recognize the need and have the ability to engage in independent learning and continuous professional development.

Bachelor of Science in Artificial Intelligence

Accredited by National Computing Education Accreditation Council (NCEAC)

Program Details:

Program Code	227
Number of Courses	44 Theory + 20 Lab + FYP
Credit Hours	137
Minimum Duration	8 Semesters, 4 Years
Maximum Duration	12 Semesters, 6 Years
Minimum CGPA Required To Earn Degree	2.00

Eligibility Criteria:

Intermediate (Pre-Engineering/ Computer Science/* Pre-Medical) with at least 50% Marks or A-Levels with equivalent certificate from IBCC Islamabad or an equivalent certificate from a recognized institution.

*Pre-Medical students must pass deficiency course of Mathematics of 6 Credit Hours with in the first year of their regular studies.

Depending on university policy, applicants may also be required to pass an entry or aptitude test and appear in an interview or additional screening if required.

Program Educational Objectives:

PEO 1 Academic Foundation: Graduates will acquire theoretical and practical expertise in Artificial Intelligence, including Artificial General Intelligence, Artificial Super Intelligence, agent-based systems, and emerging AI technologies.

PEO 2 Professional Growth: Graduates will design, implement, and deploy innovative AI solutions, applying advanced tools and technologies while working individually and in multidisciplinary teams.

PEO 3 Societal Responsibility: Graduates will uphold human-centered AI principles, ethical practices, communicate effectively, and contribute positively to society.

Graduate Attributes:

GA-1: Academic Education: Completion of an accredited program of study designed to prepare graduates as computing professionals.

GA-2: Knowledge for Solving Computing Problems: Apply knowledge of computing fundamentals, specialization, mathematics, science, and domain knowledge to abstraction and conceptualization of computing models.

GA-3: Problem Analysis: Identify and solve complex computing problems reaching substantiated conclusions using principles of mathematics, computing sciences, and relevant domain disciplines.

GA-4: Design/Development of Solutions: Design and evaluate solutions for complex computing problems; design systems, components, or processes that meet specified needs.

GA-5: Modern Tool Usage: Create, select, or adapt and apply appropriate techniques, resources, and modern computing tools to computing activities while understanding their limitations.

GA-6: Individual and Teamwork: Work effectively as an individual, as a team member, or a leader in multidisciplinary settings.

GA-7: Communication: Communicate effectively (oral, written, and graphical) with a variety of audiences.

GA-8: Project & Time Management: Demonstrate project planning, management, and execution within time, resource, and organizational constraints.

GA-9: Ethics: Understand and commit to professional ethics, responsibilities, and norms of computing practice.

GA-10: Life-long Learning: Recognize the need and have the ability to engage in independent learning and continuous professional development.

Bachelor of Science in Data Science

Program Details:

Program Code	228
Number of Courses	43 Theory + 20 Lab + FYP
Credit Hours	137
Minimum Duration	8 Semesters, 4 Years
Maximum Duration	12 Semesters, 6 Years
Minimum CGPA Required To Earn Degree	2.00

Eligibility Criteria:

Intermediate (Pre-Engineering/ Computer Science/* Pre-Medical) with at least 50% Marks or A-Levels with equivalent certificate from IBCC Islamabad or an equivalent certificate from a recognized institution.

*Pre-Medical students must pass deficiency course of Mathematics of 6 Credit Hours with in the first year of their regular studies.

Depending on university policy, applicants may also be required to pass an entry or aptitude test and appear in an interview or additional screening if required.

Program Objectives:

PEO 1 Computing Foundation: Graduates will acquire expertise in data science fundamentals, including analytics, machine learning, and data engineering.

PEO 2 Professional Growth: Graduates will design, implement, and deploy intelligent, data-driven solutions using modern tools and technologies, individually and in teams.

PEO 3 Societal Responsibility: Graduates will maintain ethical standards, communicate effectively, engage in lifelong learning, and leverage data insights for organizational and societal benefit.

Graduate Attributes:

GA-1: Academic Education: Completion of an accredited program of study designed to prepare graduates as computing professionals.

GA-2: Knowledge for Solving Computing Problems: Apply knowledge of computing fundamentals, specialization, mathematics, science, and domain knowledge to abstraction and conceptualization of computing models.

GA-3: Problem Analysis: Identify and solve complex computing problems reaching substantiated conclusions using principles of mathematics, computing sciences, and relevant domain disciplines.

GA-4: Design/Development of Solutions: Design and evaluate solutions for complex computing problems; design systems, components, or processes that meet specified needs.

GA-5: Modern Tool Usage: Create, select, or adapt and apply appropriate techniques, resources, and modern computing tools to computing activities while understanding their limitations.

GA-6: Individual and Teamwork: Work effectively as an individual, as a team member, or a leader in multidisciplinary settings.

GA-7: Communication: Communicate effectively (oral, written, and graphical) with a variety of audiences.

GA-8: Project & Time Management: Demonstrate project planning, management, and execution within time, resource, and organizational constraints.

GA-9: Ethics: Understand and commit to professional ethics, responsibilities, and norms of computing practice.

GA-10: Life-long Learning: Recognize the need and have the ability to engage in independent learning and continuous professional development.

Department of Mathematics

The Department of Mathematics at Sarhad University of Science & Information Technology, Peshawar, was established in 2022 and has quickly become a center of academic excellence. The department offers programs in applied, pure, and computational mathematics, leading to Bachelor of Science (BS) and Master of Philosophy (MPhil) degrees in Mathematics. Covering a broad spectrum of mathematical disciplines, the department plays a leading role in research and teaching, supported by a highly qualified faculty. Most faculty members are actively engaged in research across various fields, including applied, pure, and computational mathematics, demonstrating a strong commitment to advancing mathematical knowledge. The department is equally dedicated to providing high-quality education and fostering a dynamic learning environment.

Mission

The Mathematics Department aims to deliver top-quality education and research, equipping students with essential analytical skills for diverse careers and fostering an inclusive, innovative academic community.

Program Offered

- ♦ Bachelor of Science in Mathematics

Faculty Members, Department of Mathematics

Dr. Azhar Ali

Head / Associate Professor,
Ph.D Mathematics,
Islamia College University, Peshawar

Dr. Haroon-ur-Rasheed

Associate Professor,
Ph.D Mathematics,
Abdul Wali Khan University, Mardan

Ms. Asmarah Kanwal

Assistant Professor,
M.Sc Maths,
University of Peshawar

Dr. Tariq Abbas

Professor,
Ph.D Mathematics,
Islamia College University, Peshawar

Dr. Muhammad Jebran Khan

Assistant Professor,
Ph.D (Applied Sciences),
Lincoln University College, Malaysia

Dr. Shahid Mahmood

Associate Professor,
Ph.D Mathematics,
Abdul Wali Khan University, Mardan

Mr. Mumtaz Khan

Associate Professor,
M.Phil Maths,
Strathclyde University, UK

Bachelor of Science in Mathematics

Recognized by Higher Education Commission (HEC)

Program Details:

Program Code	220
Number of Courses	48 + FYP
Credit Hours	133
Minimum Duration	8 Semesters, 4 Years
Maximum Duration	12 Semesters, 6 Years
Minimum CGPA Required To Earn Degree	2.00

Eligibility Criteria:

Candidates having HSSC with a subject of Mathematics / General Mathematics in any group with at least 50% Marks or an equivalent qualification from any recognized institute or IBCC equivalent certificate are eligible to apply. Candidates need to pass an entry test/ aptitude interview conducted by the university.

Program Educational Objectives (PEOs)

PEO-1 Proficient Competence and Problem Solving:

Graduates will showcase strong analytical, critical and problem-solving abilities to succeed in various fields like education, finance, technology, and research.

PEO-2 Ethics and Social Impact: Graduates will ethically use their mathematical expertise to address real-world problems and contribute to sustainable societal development.

PEO-3 Lifelong Learning and Professional Development:

Graduates will pursue continuous learning and professional growth to stay relevant in mathematics and related fields.

Graduate Attributes:

GA-01 Mathematical Proficiency: Apply core mathematical and scientific knowledge to solve complex problems.

GA-02 Critical Thinking: Utilize logical reasoning and analytical skills to address mathematical and real-world challenges.

GA-03 Problem Solving: Formulate and solve problems using mathematical models and tools.

GA-04 Research Skills: Conduct independent research, interpret findings, and validate conclusions using mathematical methodologies.

GA-05 Communication: Effectively convey mathematical concepts, theories, and results to diverse audiences including professionals in science, engineering, business, and technology through clear writing, presentations, and visualization.

GA-06 Technological Expertise: Leverage software and technology for mathematical modeling, analysis, and interdisciplinary problem-solving in fields such as data science, finance, engineering, and computational sciences.

GA-07 Individual and Collaborative Teamwork: Function effectively as an individual and collaborate excellently in multi-disciplinary team working with peers on group projects, and problem-solving tasks.

GA-08 Lifelong Learning: Stay adaptable to new challenges and committed to ongoing learning in mathematics and interdisciplinary fields.

GA-09 Ethical Awareness: Understand the ethical implications of mathematical applications and their societal impact.

GA-10 Global Perspective: Recognize the universal role of mathematics across disciplines and connect concepts to real-world applications globally.

Faculty of Management Sciences

- Department of
Business Administration

Faculty of Management Sciences

The Faculty of Management Sciences was the first discipline of study started in the Sarhad University of Science and Information Technology, Peshawar for catering the ever-increasing demand of management professionals. The programs offered by the University at the Undergraduate and Postgraduate levels are aimed at producing managers and entrepreneurs who can promote the trade and industry in the area by putting in the skills and expertise developed during their stay at this university. The outgoing graduates are expected to be professionally equipped with state-of-the-art management techniques and capable enough to tackle the real world Business Management problems. The programs emphasize upon the development of analytical abilities with a view to enable the graduates to handle critical situations concerning humans and materials and to utilize the resources in the best optimum way.

Department of **Business Administration**

Vision

To be acknowledge and recognized as one of the leading business school at national and world wide for education and research in the areas of Business and Management.

Mission

To provide economically, socially, and culturally relevant business and management related education to all those who wish to benefit from it. We are a demand-led and customer focused education institution. We enhance learning, build confidence and create opportunities for all who choose to invest in studying at our school.

Programs Offered:

- ◆ Associate Degree in Business Administration
- ◆ Bachelor of Business Administration
- ◆ Associate Degree in Commerce
- ◆ Bachelor of Science in Commerce
- ◆ Associate Degree in Business Analytics
- ◆ Bachelor of Science in Business Analytics

Faculty Members, School of Business Administration

Associate Degree in Business Administration

Accredited by National Business Education Accreditation Council (NBEAC)

Program Details:

Program Code	083
Number of Courses	26
Credit Hours	69
Minimum Duration	4 Semesters, 2 Years
Maximum Duration	8 Semesters, 4 Years
Minimum CGPA Required To Earn Degree	2.00

Program Outcomes:

On the completion of the degree, the students would be expected to have:

- ◆ The potential to start professional career;
- ◆ The required skills to identify and analyze business problems and opportunities and recommend courses of action in the subject context;
- ◆ The potential to communicate effectively and professionally;
- ◆ The required awareness of economic, environmental, political, ethical, legal and regulatory business contexts;
- ◆ Learnt how to behave professionally, effectively and respectfully with all the stakeholders; and
- ◆ The potential to apply administrative concepts and methods to address office issues and organizational performance problems.

Eligibility Criteria:

Intermediate (I. Com, DBA, D. Com, FA, F.Sc.) with at-least 50% Marks or A-Level with equivalency certificate from IBCC Islamabad or an equivalent certificate from a recognized institution are eligible to apply.

Candidates will be required to pass an entry test / an interview conducted by the university.

Program Objectives:

This program aims at producing students who are capable and could demonstrate understanding of work as per market need and could adapt quickly to the expectations of employers. To this end the program is set to have the following objectives:

- ◆ To enable the students to have early professional life;
- ◆ To enable the students to identify and analyze business problems and opportunities and recommend courses of action in the subject context;
- ◆ To enable the students to communicate effectively and professionally;
- ◆ To enable the students to exhibit awareness of economic, environmental, political, ethical, legal and regulatory business contexts;
- ◆ To enable the students to behave professionally, effectively and respectfully with all the stakeholders; and
- ◆ To enable them to apply administrative concepts and methods to address office issues and organizational performance.

Faculty of Arts, Social Sciences & Education

The broad focus of the faculty of Arts, Social Sciences and Education is on the professional development of individuals, including teachers both through regular programs and in-service education. At the higher levels, research in education and social sciences form the primary area of attention with an endeavor to promote interdisciplinary academic exchange. The design of courses is innovative and practical with emphasis on use of Information Technology. These programs aim at cultivation of professional efficiency with a broad and reflective academic background.

The faculty also arranges lectures, workshop, symposiums, conference and seminars on the topics of arts, social sciences and education, throughout the year where eminent scholars and faculty members are invited to keep students updated and to stimulate interaction at the national and international level. Focused on preservation of our heritage, and indigenous culture and sports traditions, collective efforts to accomplish this task are made with the help of contemporary training methods and tools.

Department of Library & Information Sciences

Established in 2012, the Library and Information Science (LIS) Department has rapidly evolved into a pioneering academic unit. We currently offer Associate Degree (AD), Bachelor of Science (BS-LIS), Master of Science (MS), and Doctor of Philosophy (Ph.D) programs. Proudly, we were the first department to initiate an MS program in the province of Khyber Pakhtunkhwa. Continuing our tradition of excellence and leadership, we have received HEC NOC to launch the Ph.D program. SUIT is now first University in Peshawar and second in KP to offer Ph.D program from next semester, once again positioning itself as the foremost department in the province to offer this advanced level of education.

To further strengthen the department and enhance academic and professional growth, we regularly organize national and international conferences, workshops, seminars, and other scholarly events. These initiatives provide valuable learning opportunities, foster collaboration, and keep our faculty and students at the forefront of the evolving field of Library and Information Science.

Vision

The Department envisions a society in which library and information professionals design and manage systems and services that benefit individuals, groups, communities and organizations.

Mission

To educate, empower, and transform the lives of LIS students with an educational foundation that addresses the theories, history, ethics, values and technologies associated with the information professions.

Sarhad Institute of Legal Studies

The Sarhad Institute of Legal Studies (SILS) stands as a beacon of excellence in legal education, dedicated to cultivating a new generation of legal professionals equipped to meet the complex demands of modern society. Founded upon the core principles of justice, ethics, and intellectual rigor, SILS aims to move beyond mere theoretical instruction by integrating substantive law with crucial practical skills.

SILS operates with a mission to instill in its students a profound understanding of the rule of law and its vital role in creating a peaceful, equitable, and problem-free society. The Institute's educational philosophy is centered on developing critical thinking, analytical reasoning, and persuasive communication—the essential attributes of a successful lawyer, jurist, or policy-maker. The curriculum is meticulously aligned with the standards set by the Higher Education Commission (HEC), Pakistan Bar Council (PBC) and other relevant regulatory bodies, ensuring graduates are prepared for legal practice at both the national and international levels.

A defining feature of the SILS experience is the emphasis on experiential learning. The Institute provides a dynamic environment where classroom knowledge is immediately applied to real-world scenarios. Central to this approach is the Moot Court Room, a simulated Courtroom where students engage in mock trials, prepare written memorials, and present oral arguments. These exercises, supervised by experienced faculty and legal practitioners, are indispensable for developing skills in legal research, advocacy, and courtroom decorum. Furthermore, the Institute fosters opportunities for clinical legal education and internships, bridging the gap between academic theory and the realities of professional legal practice. By prioritizing professional competence, ethical conduct, and a deep commitment to serving the community, the SILS prepares its students not just to follow the law, but to actively shape the future of justice.

Vision

To produce highly skilled, ethical, and socially responsible Legal Professionals who contribute meaningfully to the development of Law and Justice in Pakistan and beyond, and advocate for fairness, equality, and the rule of law.

Mission

To provide high-quality legal education that fosters critical thinking, legal reasoning, and ethical conduct among our students.

شعبہ اُردو

ضرورت و اہمیت:

- ◆ زبان انسان کے افکار، خیالات، تصورات، جذبات و احساسات کے اظہار کا بہترین ذریعہ ہے۔ اور اس میں مہارت کے حصول سے اغراض کی وجہ سے وہ اپنے علم، افکار اور تجربات کا صحیح اظہار نہیں کر سکتا۔ اُردو پڑھانے اور بولنے کا مقصد یہی ہے کہ طلباء اس زبان میں مسلسل اور مربوط طریق پر خوب صورت گفتگو کر سکیں۔ اُردو زبان میں مہارت خود اُردو ہی کے نقطہ نظر سے نہیں دوسرے علوم کی تفہیم و ترقی کے لحاظ سے بھی ضروری ہے۔
- ◆ اُردو پاکستان کی قومی زبان ہے اور کوئی ملک اپنی قومی زبان سے صرف نظر نہیں کر سکتا۔ قومی زبان علاقائی فرق کو مٹا کر پورے ملک کو ایک وحدت کی لڑی میں پروتی ہے اس لیے قومی زبان نہ صرف پورے ملک کے رابطے کی زبان ہوتی ہے بلکہ قومی وحدت اور اتحاد کا ایک بڑا ذریعہ بھی ہوتی ہے۔

مقاصد:

- ◆ اُردو زبان و ادب کے ذریعے طلباء میں حصول علم کا جذبہ پیدا کرنا، تاکہ وہ ملک و قوم کے لیے مفید شہری ثابت ہوں۔
- ◆ طالب علموں کے لیے زبان و ادب کے مضامین کے علاوہ ایسے مضامین کی تدریس کا بھی اہتمام کیا گیا ہے جن کی تحصیل سے وہ عملی زندگی کے مختلف شعبوں میں اپنی صلاحیتوں کو آزمائیں اور ان کی معاشی ضرورت کو پورا کر سکیں۔
- ◆ طلباء کے لیے ایسے موضوعات منتخب کرنے میں آسانی پیدا کرنا جو ان کی معاشی ضرورت کو پورا کر سکیں اور عملی زندگی میں مفید ثابت ہو سکیں۔

حاصلاتِ تعلیم:

- طلباء ایسوسی ایٹ ڈگری ان اردو کے حصول کے بعد اپنی پیشہ وارانہ صلاحیتوں کا اظہار قومی اور نجی اداروں میں کر سکیں گے۔ جن میں شعبہ تعلیم (تدریس)، نشریاتی ادارے (ریڈیو، ٹیلی ویژن، اخبارات)، خصوصی طور پر شامل ہیں۔
- طلباء میں نہ صرف قومی خدمت کا جذبہ پیدا ہوگا، بلکہ باعزت اور اچھے روزگار کی وجہ سے ان کی معاشی ضروریات بھی پوری ہو سکیں گی۔
- طلباء اب پارے کو پڑھ کر اس کا فکری و فنی جائزہ لے سکیں گے۔

معیارِ اہلیت:

ایسے امیدوار جس نے کسی بھی گورنمنٹ سے منظور شدہ انٹر میڈیٹ بورڈ سے ایف اے، ایف ایس سی (پارہ سال تعلیم) 45% نمبر سے پاس کیا ہو یا اے لیول کا مساوی درجے کا سرٹیفکیٹ IBCC اسلام آباد سے حاصل کیا ہو۔

مقاصد:

- اردو زبان و ادب کے ذریعے طلباء میں حصولِ علم کا جذبہ پیدا کرنا تاکہ وہ ملک و قوم کے لیے مفید شہری ثابت ہوں۔
- اردو زبان کا دامن صرف ادب تک محدود نہیں، اس میں تاریخ، جغرافیہ، سیاسیات، شہریات، اقتصادیات، طب، ارضیات، محاسبات، بلکہ عصر حاضر کے تمام علوم و فنون کا اظہار ہو رہا ہے اور ہو سکتا ہے۔ لہذا طلباء کو اس قابل بنانا کہ وہ جب اپنی عملی زندگی کا آغاز کریں تو مذکورہ علوم کا اپنی قومی زبان میں اظہار کر سکیں۔
- کسی بھی زبان کا ادب اس خطے کی تہذیب، ثقافت اور اقدار کا نمائندہ ہوتا ہے۔ لہذا اردو کی تدریس کے ذریعے طالب علموں کو اپنی اقدار اور ثقافت سے روشناس کرانا بھی پیش نظر ہے۔
- اردو کی مختلف نثری، منظوم اسٹاف اور دیگر طرزِ بیان کو پڑھ کر ان میں امتیاز، امتحان اور تنقید کر سکیں۔

Important Rules & Regulations

1. Application/ Admission Procedure

University offers undergraduate admissions bi-annually in the Fall and Spring Semesters (other than Nursing, Engineering and Pharmacy Programs, which are offered once a year in Fall Semester) in accordance with the following procedure:

- 1.1 Admission to undergraduate programs of the University shall be advertised by the Directorate of Admissions in consultation with Concerned Heads of Departments / Directors of Institutes.
- 1.2 The Candidate shall meet the eligibility criteria as mentioned against the program of interest.
- 1.3 Prospectus along with admission forms are available on the website, at TCS outlets of Khyber Pakhtunkhwa, and Main Campus of the University.
- 1.4 Application for admission must be made on the form enclosed within the prospectus. Photocopy or computer print will not be accepted. In case candidates apply online, they should submit hard copy of online submitted form only with all required credentials to the directorate of Admissions on or before prescribed dates mentioned in the advertisement.
- 1.5 Each candidate shall submit only one application. The applicant shall clearly mention the choices of the programs of interest.
- 1.6 Applications for admissions shall be submitted online through website or physically to the Directorate of Admissions within the prescribed period.
 - a. Receipt of online application shall be acknowledged through text message on the cell number given in the application form.
 - b. Receipt of application submitted through surface mail (by post/courier service) shall be acknowledged via text message on the cell number given in the application form.
 - c. Receipt of application submitted on campus shall be acknowledged at the time of submission.
- 1.7 The University reserves the right to reject any application received after due date and allotted time and/or found deficient in any respect.
- 1.8 Incomplete Applications in any respect will not be considered.
- 1.9 The number of students to be admitted shall be determined by the Head of Department/Director of institute in consultation with concerned Dean, Competent Authority as per allocated seats.
- 1.10 Entry Test/Interview are to be conducted as per the respective Department/Institute Policy.
- 1.11 Merit lists will be uploaded on the University's Website, other official social media platforms, and Directorate of Admissions Notice Board.
- 1.12 Two sets of attested copies of certificates, testimonials and four colour photographs (White background) should be attached with the application form.
- 1.13 Hard copies of the online submitted application form along with all required credentials should be submitted by the selected applicant to the Directorate of Admissions on or before prescribed dates as per advertisement.

- 1.14 According to merit list(s), the selected candidates shall be required to submit their original credentials to the Admissions Committee for verification. An Admissions Committee shall consider the applicants for admission to different programs on the basis of academic record, entry / aptitude test and or interview of the candidates. After successful scrutiny of the documents, the Admission Committee shall issue invoices to the selected candidates.
- 1.15 The admission of a candidate to a program shall initially be provisional, to be confirmed after:
 - i. verification of testimonials / documents,
 - ii. removal of course deficiencies, if any.
- 1.16 Applicants and their parents shall give an undertaking to abide by the Rules and Regulations of the University and such instructions as may be issued by the Competent Authority of the University from time to time.
- 1.17 Responsibility of correctness of the provided data in the application form shall rest upon the applicant. In case of any discrepancy or false information provided in application form/submitted documents, the admission shall be cancelled at any stage of the degree program.
- 1.18 In order to secure admission, the selected student shall deposit Admission Fee along with Tuition Fee of the first semester in designated branch of the authorized bank of the University by the due date given in the invoice.
- 1.19 Applicants with a Bachelors (2 years) or Associate Degree completed in Annual System whether their qualification is relevant or irrelevant to the subject program will be required to study a bridge semester/additional courses in order to complete at least 130 credit hours (as only 50 credit hours of their previous Annual Mode degree will be considered). In case of relevant qualification in annual mode, the concerned Department will decide the courses to be taken in the appropriate semester. In addition, candidates must have studied compulsory subjects of Islamic Studies and Pakistan Studies / Ideology of Pakistan in their Bachelors/Associate Degree, otherwise, they will be required to study these subjects at SUIT in order to overcome the deficiency.
- 1.20 The university reserves the right to withhold or cancel the offering of any academic program if an adequate number of candidates do not apply for admission to that specific program.
- 1.21 A student who is already enrolled in any academic program at Sarhad University or any other recognized University/Degree Awarding Institution (DAI) shall not be eligible for admission to another program at Sarhad University, in the same mode or a different mode of study without No Objection Certificates (NOCs) have been obtained from both institutions. Any admission secured in violation of this provision shall be considered invalid, and the student shall remain ineligible for admission at Sarhad University until completion of the degree program in which he/she is already enrolled.

2. Restrictions and Declarations

- 2.1 Candidates punished by their previous institutions or universities on account of indiscipline or undesirable activities (major penalties) shall not be admitted in the University.
- 2.2 The authority concerned may refuse admission to a student who, in its opinion, has malafide intentions or undesirable background.

3. Deficiency

In case a candidate lacks the background knowledge for a specific program of interest, he/she shall have to make up the deficiency by taking one or more additional courses as the concerned Faculty may prescribe.

4 (a). Procedure for Admission of Foreign Nationals:

Non Pakistani candidates desirous of joining Sarhad University are required to produce the following documents along with their request for admission, before they can be considered for admission.

- i. No Objection Certificate (NOC) from the Pakistan Embassy of the respective Foreign Country.
- ii. Duly filled "Foreign Student's Information Sheet" available on HEC website.
- iii. Copy of valid Passport along with Visa.
- iv. Photocopies of all previous educational certificates/degrees attested by the concerned Embassy and Pakistan Foreign Office.
- v. English Language Proficiency Certificate from the Pakistan Embassy of the respective foreign country.

For admission confirmation:

- i. No Objection Certificate (NOC) from Higher Education Commission (HEC) for Admission in concerned degree program.
- ii. Study VISA for concerned degree program.

4 (b). Procedure for Obtaining Equivalence Certificate for Foreign Qualification:

- i. Admission on the basis of 12 Years of Education/Schooling in Diploma, AD/BS Degree Programs
Equivalence Certificate for Higher Secondary School Certificate (12 years of schooling) from The Inter Board Coordination Commission (IBCC). For further details, please visit: <https://ibcc.edu.pk/>
- ii. Admission on the basis of 14/16 Years of Education in BS or Equivalent Degree Programs
Equivalence Certificate of foreign qualification from Higher Education Commission, Pakistan. For further details, please visit: <https://www.hec.gov.pk/english/services/students/DES/Pages/Procedure/Procedure-foreign.aspx>

5. Cancellation of Admission

Admission shall be cancelled if:

- 5.1 A bonafide student at the University applies in person, or through parents/guardian, for cancellation of admission. The Vice Chancellor shall approve the cancellation of admission of the student on the recommendation of the Head of Department / Director of Institute through the concerned Dean.

- 5.2 A student registered in a semester/term remains willfully absent from the classes continuously for a period of 40 days. Such action shall be taken on the recommendation of the Head of the concerned Department.
- 5.3 If a student enrolls himself / herself in any other program of Sarhad University or some other University/DAI while registered at Sarhad University in same mode or in different mode without NOC's from both universities, his / her admission will be cancelled immediately.
- 5.4 On the recommendation of the University Disciplinary/ Un Fair Means Committee the admission can be cancelled with the approval of the Vice Chancellor. However, the concern student can appeal to the Appellate Committee through proper channel.
- 5.5 If a student fails to complete his/her degree program within the prescribed maximum duration, his/her admission shall automatically stand cancelled upon expiry of the maximum duration period.

6.1 Enrolment in Semester / Term

- a. At the beginning of each semester/ term, a student must enroll in courses of studies on the prescribed enrolment form.
- b. The enrolment shall not be deemed complete unless a student makes payment of all prescribed fees and submits the course enrolment form.
- c. Enrolment and fee payment shall be completed by the dates notified for this purpose, provided the authority concerned may, in special circumstances and on the payment of a late fee of Rs. 5,000/-, permit a student to enroll within 3 weeks after the commencement of a semester/ term. This permission of late admission/ enrolment shall be at the student's risk who shall be responsible to make up for the deficiency on his/her own.
- d. A student admitted to a program shall, for so long as he/she has not completed all requirements for the degree, enrol himself/ herself for each semester/ term, failing which his/her admission shall stand cancelled. In case he/she desires readmission, he/she shall have to apply afresh. The concerned authority may re-admit such a candidate, or refuse admission if reasons advanced are not convincing.
- e. A student who discontinues with permission may seek readmission in the same or subsequent semester/ term on the recommendations of the concerned faculty/ department/ institute and approval of the Competent Authority.
- f. A student shall not be allowed to enrol in a course having a pre-requisite course unless he/she passes that pre-requisite course.
- g. Course Audits: Students enrolled at Sarhad University may, on recommendations of their advisors/ tutors and approval of the concerned Dean/ Head of Department / Director of Institute, audit courses. Such students shall not receive any credit for the courses taken on audit basis. In order for a successful audit to show on a student's academic record (transcript), the student shall comply with all requirements specified by the teacher/ concerned department. Failure in meeting such requirements may lead to award of letter grade W (for withdrawn). Successful audit shall be indicated by letter grade V (for verified). Students registering for courses on audit basis shall pay tuition fees at the regular rate.
- h. In some programs, the theory and lab components are treated as separate courses. In such a case, if the theory component of a course (say Level I) is pre-requisite for the next higher course (Level II), enrolment in theory and lab components of Level II course shall be allowed only if the theory component of Level I is passed. A student

who has failed theory of Level I, but passed lab of Level I shall neither be allowed to enrol in theory nor lab of Level II.

- i. The courses will be offered subject to the availability of the faculty and reasonable number of students.

6.2 Freezing of Semester/Term

- a. A bonafide student of the University may apply in person, or through parents/ guardian, for freezing of a regular semester, within five weeks from the date of commencement of semester, provided the student has paid the semester dues by the prescribed date. No fee shall be paid when the student subsequently enrolls in the next semester except for the difference of fee of the semester frozen and the semester in which the student enrolls. The duration of frozen semester(s) shall be counted within the maximum duration of the relevant degree program.
- b. If a student freezes semester(s), he/she shall resume his/her studies from the same stage where he/she left (froze). The duration of frozen semester(s) shall be counted within the maximum duration of the relevant degree program.
- c. If a student is not enrolled in any course in a semester, he/she shall not be considered a regular student of the University in that period. The student may then enrol in the courses in a subsequent semester; however, he/she shall meet pre-requisites of any course taken. Further, the University is not required to offer all courses in each semester.
- d. In special hardship cases, the University may develop any criteria for freezing a semester with the prior permission of the Competent Authority. Medical certificate shall be duly issued by Government Hospital Doctor/ Physician.
- e. The duration of freezing is one year; a candidate who gets a semester frozen can get readmission next year with the upcoming session.
- f. Freezing of first semesters shall not be allowed.
- g. Under special hardship circumstances, freezing of first semester may be considered with the approval of the Competent Authority.
 - . Iddat
 - . Maternity
 - . Death in the immediate family
 - . Any other situation, subject to acceptance on justified rationale.

Note: Freezing of semester shall only be allowed after successful completion of 1st Semester.

6.3 Leave of Absence

An undergraduate student may be granted Leave of Absence from the university on valid grounds, subject to approval by the competent authority. The student must submit a written application with supporting documents, where required. Leave of Absence shall normally be allowed for a specified period only and the student shall not attend classes, appear in examinations, or claim academic benefit during the leave period. After completion of the approved leave period, the student must formally rejoin the program according to university rules. The leave duration shall be counted within the maximum duration of the degree program.

7. Re-Enrolment

7.1 Semester System

- a. A student receiving F or W grade in any course shall be required to re-enrol in that course. A student receiving C, D or D+ grade in a course may also re-enrol in that course, subject to a maximum of one chance to improve his/her grade.
- b. A department may offer Repeated Courses (over and above the regularly scheduled courses with total credit hours not exceeding 18 for two/ four-Year degree programs and 22 credit hours for five-year degree program) during a regular semester to facilitate re-enrolling students. However, minimum number of students re-enrolling shall be 10; otherwise, the course shall be dropped.
- c. A student may re-enrol for a maximum of 2 courses during the Summer Semester. During a regular semester (Spring/Fall), a student may re-enrol for a course (in addition to the prescribed courses) on the payment of prescribed fee provided the maximum credit hours limit is not violated.
- d. If a course is abolished due to revision in curriculum or scheme of studies, the Head of Department / Director of Institute may recommend a relevant course from the existing curriculum as replacement for the candidates who need to re-enrol in the abolished course. The same shall be reflected in the students' Registration Forms and Transcripts.

7.2 Term System

- a. A student receiving F grade in any course shall be required to re-enrol in that course. A student receiving up to 64 marks in a course may also re-enrol in that course, subject to a maximum of one chance to improve his/her marks.
- b. A department may offer Repeated Courses (over and above the regularly scheduled courses and total courses not exceeding 7) during a regular term in order to facilitate the students. However, the number of re-enrolment students must be at least 5 or with the approval of the Dean on the recommendation of the Head of Department / Director of Institute. Otherwise, the course shall be dropped.
- c. During a regular term a student may re-enrol for courses (in addition to the prescribed courses) on the payment of the prescribed fee provided the maximum limit of courses is not violated.
- d. If a course is abolished due to revision in curriculum or scheme of studies, the Head of Department / Director of Institute may recommend a relevant course from the existing curriculum as replacement for the candidates who need to re-enrol in the abolished course. The same shall be reflected in the students' Registration Forms and DMCS.

8. Payment of Dues

At the time of admission, every student shall be required to deposit admission fee, registration fee, security, semester / term enrolment fee, tuition fee, examination fee, lab/chemical charges, and any other fee prescribed in the form of demand draft in the name of Sarhad University Peshawar, or deposit it at specified branch(es) of an authorized bank. Similarly, for each subsequent semester/ term, dues shall be paid by the prescribed dates. Otherwise, the admission shall be cancelled.

9.1 Semester System

- a. Sarhad University follows the semester system. There are two semesters (Fall and Spring) every year. Each semester is spread over 18 weeks (including examinations). At the end of each semester, two to three weeks are allowed for the compilation of results. Students promoted to the next semester have to complete their enrolment during the first week of each semester. Admissions are announced in August for the Fall semester usually commencing in

October/November, whereas admissions for the Spring semester are announced in February. The Spring semester usually commences in April each year.

- b. The University may plan a crash semester (Summer Semester) of eight weeks during the summer break. Students who are interested to reappear and clear their failed courses / or want to improve grade shall be afforded the opportunity to do so during the Summer Semester. A student shall be allowed to take maximum two courses during the Summer Semester.
- c. While all degree programs have their specific durations, number of courses, and credit hour requirements, in general, a four-year degree program requires the completion of about 130 credit hours usually in eight semesters, whereas a two-year degree program requires the completion of more than 66 credit hours, usually in four semesters.
- d. By definition, a credit hour means teaching a theory course for one hour each week throughout the semester (provided the semester duration is at least 16 weeks excluding examinations). One credit hour in laboratory or experimental work requires contact of three hours per week throughout the semester. The credit hours are denoted by two digits with a hyphen in between. The first digit represents the theory part, whereas the second (right side) digit represents the practical. Thus, 3-0 means three credit hours of theory, whereas 3-1 means a total of four credit hours, of which three credit hours are for theory and one credit hour is for laboratory. The weekly contact hours of a 3-0 course shall be three, the contact hours of a 3-1 course shall be six, and the contact hours of a 1-2 course shall be seven. The contact hours during the crash (Summer) semester shall be doubled to ensure that the course is completely taught in the semester with half the duration as compared to a regular (Fall or Spring) semester.
- e. (i). In accordance with the directive of the Government of Pakistan issued vide HEC Letter No. 10-01/coord(Acad)/HEC/233 dated 28th March, 2025, teaching of two courses of Understanding of the Holy Quran to Muslim Students will be completed during the course of each program.
(ii). Those students will be exempted from the above condition who have already studied Holy Quran previously, subject to submission of any relevant certificate / diploma issued by Wifaq Ul Madaris Al Arabia, Pakistan / DAI.

9.2 Term System

- a. In the Term System, examination is conducted within six months. Thus, two term examinations are conducted in a year. Evaluation of the students is made on the basis of these two examinations.
- b. (i). In accordance with the directive of the Government of Pakistan issued vide HEC Letter No. 10-01/coord(Acad)/HEC/233 dated 28th March, 2025, teaching of two courses of Understanding of the Holy Quran to Muslim Students will be completed during the course of each program.
(ii). Those students will be exempted from the above condition who have already studied Holy Quran previously, subject to submission of any relevant certificate / diploma issued by Wifaq Ul Madaris Al Arabia, Pakistan / DAI.

10. Withdrawal/Change of Course(s)

- a. When a course, for which a student has enrolled, cannot be offered according to the announced program, the student may take an alternative course. However, this shall be done no later than 15 days after the date of enrolment.
- b. A student, with the consent of the concerned Dean/ Head of Department/Director of Institute, may be allowed to:
 - (i) Change a course within 7 days of the commencement of a semester/ term, and

- (ii) Drop a course within 5 weeks of the commencement of a regular semester/ term. No fee shall be paid when a dropped course is taken at a later stage.
- c. A student, with the consent of the concerned Dean/ Head of Department/Director of Institute, shall be allowed to withdraw from a course at the latest by the end of the 12th week of the commencement of a regular semester/ term. Withdrawn courses shall appear on the transcript with letter grade W. Students shall have to pay the requisite fee when taking a course from which they had withdrawn earlier.

11. Attendance

- a. A student at the Main Campus shall have attended at least 75% of the classes held in a course in order to be allowed to sit in the final examination. The student shall meet higher attendance requirement if the requirement established by the concerned council is greater than 75 %.
- b. A student having less than 75% attendance, but more than 60% attendance in a particular course and having made up the deficiency in consultation with the concerned teacher, may be allowed by the concerned Dean/ Head of Department/Director of Institute to take the final examination. This clause is not applicable if the attendance requirement established by the concerned council is greater than 75%.
- c. Students having class attendance less than 60% in a particular course shall be required to repeat the course when it is offered again.

12.1 Examinations (Semester System)

- a. At the Campus, the examination papers for the midterm and final examinations shall usually be set by the subject teacher and submitted to the Head of Department / Director of Institute. The Head of Department / Director of Institute may decide to have the papers set externally. In any case, the Head of Department / Director of Institute shall check the paper for course coverage and appropriate depth and, when satisfied, forward the paper to the Controller of Examinations. Otherwise, the Head of Department / Director of Institute shall refer the paper back to the paper setter for revision.
- b. In each semester, a student's academic progress and standing shall be determined through quizzes, midterm and final examinations, presentations, assignments, and lab reports. These modes of evaluation shall have different weightages and shall contribute towards the overall assessment in percentage marks. The weightages shall be determined by the teacher concerned on the basis of the following guidelines:

Nature of Evaluation	Course with Lab	Theory Course	Lab
Quizzes	5 – 10 %	5 – 15%	-----
Midterm Examination	20 – 30%	30 – 40%	15 – 20%
Presentations and Assignments	5 – 10%	5 – 10%	-----
Lab Work	-----	-----	25 – 30%
Viva	-----	-----	15 – 20%
Report	-----	-----	0 – 10%
Final Examination	30 – 60 %	35 – 60 %	20 – 30 %

- c. In-semester evaluation will be based on quizzes, midterm examination, presentations and assignments, and lab work.
- d. In case a student joins a course after it has started, he/she shall be responsible for any missed lectures, quizzes, assignments, projects and lab work. The marks in the missed quizzes shall be zero, whereas assignments, projects, and lab work may be arranged in consultation with the concerned teacher/Head of Department / Director of Institute.

Important Rules & Regulations

- e. No make-ups shall be arranged for the quizzes and midterm examinations.
- f. Make-up for the final examination in a course shall be arranged only if a student has been awarded letter grade I in that course.

12.2 Examinations (Term System)

At the campus, the examination paper for midterm and final examinations shall usually be set by the subject teacher and submitted to the Head of Department / Director of Institute. The Head of Department / Director of Institute may also decide to have the papers set externally. In any case, the Head of Department / Director of Institute shall check the paper for course coverage and appropriate depth and, when satisfied, forward the paper to the Controller of Examinations. The Head of Department / Director of Institute may refer the paper back to the paper setter for revision. In each term, students shall be required to appear in quizzes, written tests, final examination, and make presentations, participate in group discussions and submit assignments/lab reports by the set dates. These (to be determined by the teacher concerned) shall have different weightages and contribute towards the overall assessment in percent marks.

13.1 Grading Policy (Semester System)

- a. At the end of each semester, the students shall be awarded letter grades A, B+, B, C+, C, D+, D, or F based on the percent marks earned in each course. Letter grades W (for withdrawal), I (for incomplete), S (for satisfactory), U (for unsatisfactory), V (for verified) shall not count towards GPA computation. The grade points corresponding to these grades are:

Percent Marks	Letter Grade	Grade Point	Remarks
85 - 100	A	4.00	Excellent
78 - 84	B+	3.50	Outstanding
70 - 77	B	3.00	Good
65 - 69	C+	2.50	Above Average
60 - 64	C	2.00	Average
55 - 59	D+	1.50	Below Average
50 - 54	D	1.00	Poor but Passing
< 50	F	0.00	Failing
-	I	-	Incomplete
-	W	-	Withdrawn
-	S	-	Satisfactory
-	U	-	Unsatisfactory
-	V	-	Verified

- b. The Dean/ Head of Department / Director of Institute of the concerned Faculty/ Department/ Institute may decide to use curving for the award of letter grades instead of using fixed percentages tabulated above.
- c. Seminars and field-work shall be graded Satisfactory (S) or Unsatisfactory (U) instead of letter grades carrying numerical values.
- d. Courses taken on Audit Basis shall show up on the transcript with letter grade V (for verified) and shall not

- contribute towards GPA computation.
- A student, who fails to complete a course for reasons beyond his/her control, may be granted letter grade I. In that case, if the student has secured passing marks in the in-semester evaluations, his/ her make-up final examination shall be conducted to enable him/ her to complete the course and earn a grade. In case, the student has not been able to appear or has failing marks in the in-semester evaluations and is not in shortage of attendance, he/ she shall have to take the course again. The letter grade I shall subsequently be replaced by the earned grade.
 - Students receiving F grade in any course shall have to repeat the course whenever it is offered again. A student obtaining a D or D+ grade in a course may also repeat that course, if necessary, to improve his/her CGPA. In case of repeated courses, all grades earned by the student shall appear on the transcript; however, only the best grade shall be counted for computation of GPA.
 - A student not allowed to appear in the final examination of a course due to shortage of attendance shall be deemed to have obtained zero marks in the final examination. The grade shall be awarded based on the student's sessional and midterm examination marks.

13.2 Grading Policy (Term System)

Grades	Percent Marks	Remarks
A+	80% Marks and above	Distinction
A	70% and above but below 80%	Excellent
B	60% and above but below 70%	Very Good
C	50% and above but below 60%	Good
D	45% and above but below 50%	Fair
E	Less than 45% to minimum	Satisfactory

14. Computation of Semester and Cumulative GPA

Semester and cumulative Grade Point Averages (GPAs) shall be calculated using the following relationships: The GPAs shall be on a scale of 4.00. The semester GPA shall have three digits after decimal (e.g., 2.835), whereas the cumulative GPA will have two digits after decimal (e.g., 2.84).

$$\text{GPA} = \frac{\text{Sum over Semester (Course Credit Hours x Grade Points Earned)}}{\text{Total Semester Credit Hours}}$$

$$\text{CGPA} = \frac{\text{Sum over all taken (Course Credit Hours x Grade Points Earned)}}{\text{Total Credit Hours Taken}}$$

15.1 Transcript (For Semester System)

Provisional transcripts shall be issued to all students free of charge within four weeks of declaration of semester result. Official transcripts shall be issued on the completion of the degree program or on request, provided the requisite fee is paid. Additional copies of the transcripts may also be obtained on the payment of the requisite fee. Mode of education, (i.e. On- campus/Distance/Sub campus) and place of study shall be mentioned on the transcript.

15.2 DMC (Detailed Marks Certificate) (For Term System)

Provisional DMC shall be issued to all students free of charge within four weeks of declaration of term results. Official DMC shall be issued on the completion of the degree program or on the payment of the requisite fee. Additional copies of the DMC may also be obtained on the payment of the requisite fee. Mode of education (i.e. On-campus/Distance/ Sub campus) and place of study shall be mentioned on the transcript.

16.1 Promotion Policy (For Semester System)

- a. Students who maintain minimum semester and cumulative GPAs of 2.00 shall be promoted to the next semester. Students of Pharm-D / BS Nursing program with CGPA 2.0 shall be promoted to the next professional year.
- b. A student who fails to maintain the above-mentioned GPA/ CGPA shall be promoted to the next semester on Probation, provided his/her semester and cumulative GPAs are not less than 1.50 (Not applicable for Pharm-D / BS Nursing students).
- c. A student scoring GPA less than 1.50, but more than 1.00, shall be promoted on Warning. If a student fails to achieve the required GPA/ CGPA after repetition of courses, he/she shall be removed from the University roll.
- d. A student scoring GPA less than 1.00 shall be declared Failed and shall be required to repeat the semester (essentially the courses in which he/ she has grades lower than C). The student may be allowed to take a few courses from those of the next semester. If a student fails to achieve the required GPA/ CGPA after repetition of courses, he/she shall be removed from the University roll.
- e. Students shall show satisfactory academics progress in order to remain in good standing. The following rules are meant to ensure that students get timely feedback on their academic progress:
 - I. A student who obtains SGPA of less than 2.0 in any semester shall be issued written warning by the Head of Department / Director of Institute. A copy of the warning letter shall be also sent to the parents/guardian.
 - II. A student who obtains SGPA of less than 2.0 for three consecutive semesters and his/her CGPA is also less than 2.0 shall have his/her name struck off the rolls of the university and may be readmitted with the junior batch. A written warning of this possibility shall be sent to the student (with copy to the parents/guardian) if his/her SGPA is less than 2.0 for two consecutive semesters.
 - III. A student whose CGPA in the first two semesters is less than 1.5 shall not be allowed to register for the third semester until his/her CGPA has improved to 1.5 or more through reappear.
 - IV. A student who has earned four or more F grades in the first two semesters and these F grades are still outstanding at the end of the 4th semester with CGPA less than 1 shall not be allowed to register in the 5th semester until he/she passes these courses and improve CGPA to 1.5 or more.

16.2 Promotion Policy (For Term System)

A student shall be promoted to the next term if he/she passes at least 50% courses.

17. Final Year Project

As part of most of the degree programs, students need to complete projects individually or in groups of size not exceeding three.

Title of the proposed Project:

Title should be a crisp phrase. It should neither be too lengthy nor too brief. It must not include name of some organization or individual.

Example: Software Development for Airline Booking System.

Outline of Proposal:

Give details of major objectives and arguments to justify the project. Provide description of approach/scheme/methodology that is intended to be used for the development of this project.

Duration of Project:

For a four-year degree program, the project shall be completed in two semesters, 7th and 8th. Those pursuing one- or two-year degree program may take project during their last semester. The students shall provide a tentative schedule along with the project break down structure.

Plagiarism policy for undergraduate Final Year Project:

Students must make sure that document they are submitting is in proper documenting style (i.e., IEEE, Chicago, MLA, APA, etc.) and is free of plagiarism.

If the research project report has a similarity index $\leq 30\%$, then the benefit of the doubt may be given to the author, but, in case, any single source has a similarity index $\geq 5\%$ without citation, then it needs to be revised.

A Project Evaluation Committee, constituted by the Head of Department, shall assess the progress of the project through four presentations by students, each carrying 5% marks. In the first presentation, students shall present the project proposal on prescribed format, whereas in the other presentations, progress reports shall be presented. The presentations shall be scheduled as follows:

First Presentation:	Second week of 7th semester.
Second Presentation:	Midterm exam week of 7th semester.
Third Presentation:	Final exam week of 7th semester.
Fourth Presentation:	Midterm exam week of 8th semester.

The viva voce shall be taken by an Departmental Committee comprising the External Examiner, Project Supervisor of the concerned group, and Head of the concerned Department. Each member shall award marks out of 15% making a total of 45% marks. The Examination Committee shall be appointed by the Vice Chancellor on the recommendation of the Head of the concerned Department.

Note: The evaluation of project shall be carried as follows:

Factors on the basis of which the advisors shall rate progress during the project phase:

- Progress
- Independence of work
- Ingenuity
- Overall Learning
- Complexity

Factors on the basis of which Project Reports shall be evaluated:

- Grammar
- Style
- Report Format
- Problem Statement
- Scope and Limitations
- Procedure
- Raw Data / Computer Code (Report and Diskette)
- Theoretical Background and Sample Calculations
- Graphs and Pictures
- Discussion on Results and Conclusions
- Recommendations
- Overall Learning

Factors on the basis of which Presentation shall be evaluated:

- Project procedure stated briefly and to the point i.e. presentation style and skill
- Continuity and clarity of thought reflected
- Requirements and importance of work clearly specified
- Difficulty level of the project
- Conclusions drawn well-explained
- Technical terms used in talk well-defined and correct
- Answers given to the questions put forward by the Examiner(s)

•Departments/Institutes may revise the above format and have it approved to meet the specific requirements of their programs as well as those of the relevant accreditation councils.

18. Program Completion & Graduation

- a. For graduation, all F grades have to be cleared. Besides, the minimum qualifying CGPA for undergraduate program students is 2.00/4.00. Faculties/ departments/institutes may impose additional requirements like satisfactory completion of internship, practical training, field work, seminars etc.
- b. To earn B.Sc Engineering Degree, a student shall:
 - i. Pass all courses of study prescribed in the relevant scheme of studies.
 - ii. Obtain a Cumulative Grade Point Average (CGPA) of at least 2.00.
 - iii. Complete Survey Camp by the BSc Civil Engineering students to be conducted by the University and certified by the Head, Department of Civil Engineering/Incharge Survey Camp).
- c. Engineering students shall carry out supervised and evaluated internship of 6-8 week duration in line with elective subjects/ specific stream in the 3rd to 4th year of the engineering program. The internships shall be reflected in the transcripts under a prescribed mechanism and with defined and mapped rubrics program objectives:

· Attendance (At least, 75% attendance is mandatory)	10%
· Assessment report from the employer	50%
· Evaluation at relevant HEI/ Department - Presentation	40%
· Total	100%
· Qualifying score in the above assessment	70%

- d. Similarly, Pharm-D students need to meet the clerkship requirement as outlined by their department.

19.1 Transfer of Credits

- a. The policy regarding the acceptance of courses by transfer is to allow credit for courses completed with letter grades C or better (usually, 60% or higher marks) in other recognized Universities.
- b. The transfer student shall file an official transcript of transfer courses and provide other relevant information (course contents/ outlines/ titles of text and reference books) enabling the University to award credit.
- c. An Equivalence Committee comprising three senior faculty members shall oversee such cases. The University may co-opt someone from outside, if necessary. The Committee shall ensure that:
 - i. the courses correspond in time and content to the courses offered at Sarhad University,
 - ii. the courses being considered for transfer were taken within the last five years.
 - iii. the semester duration matches with that of Sarhad University. Thus 16 credit hours taken in a quarter (10 weeks of teaching) shall be considered equivalent to 10 credit hours of a semester of 16 weeks of teaching.
- d. In no case, the transfer credits shall exceed 50% of the overall credit hours for any degree program of interest at Sarhad University.
- e. Applicants shall have to pay the prevalent credit transfer fee.
- f. Transferred courses shall be reflected on the transcript, but shall not count towards CGPA computation.
- g. Any student taking admission in BS Program after completing 14 years of education under Annual System shall receive 50 credit hours against first 2 years of his/her BS Program and will be required to complete remaining credit hours as per scheme of studies of concerned BS Program to earn 4 years Bachelor degree along with the Bridging Semester.
- h. Any student taking admission in BS program after completing Associate Degree in relevant discipline under semester system shall be required to complete/study at least 50% of the overall credit hours of the concerned degree program as mentioned in the prospectus. In any case the accepted credit hours of Associate Degree shall not exceed 50% of the overall credit hours of the concerned degree program.

19.2 Exemption Policy

- a. The policy regarding exemption of courses is to allow credit for courses completed with letter grades C or better (usually, 60% or higher marks) in other recognized Universities.
- b. The applicant shall file an official transcript of courses previously taken and provide other relevant information (course contents/outlines/titles of text and reference books) enabling the University to award credits.
- c. An Equivalence Committee comprising three senior faculty members shall oversee such cases. The University may co-opt someone from outside if necessary. The Committee is to ensure that:
 - i. The courses correspond in time and content to the courses offered at Sarhad University,
 - ii. For courses that were taken more than five years back, the contents are still valid and match with those currently being taught.
 - iii. The semester duration matches with that of Sarhad University. Thus, 16 credit hours taken in a quarter (10 weeks of teaching) shall be considered equivalent to 10 credit hours of a semester of 16 weeks of teaching.
- d. In no case, the credits of exempted courses shall exceed from 50% of the overall credit hours for any degree

- program of interest at Sarhad University.
- e. Applicant shall have to pay the prevalent course exemption fee. Transferred/Exempted courses shall be reflected on the transcript, but shall not count towards CGPA computation.
- f. Exempted courses shall be reflected on the transcript, but shall not count towards CGPA computation.

19.3 Credit Transfer Facility under Student Exchange Program

- a. A student exchange program allows SUIT students to study or intern at any recognized host degree-awarding institute or university for a specific period, typically a semester or a year. The grade points earned and credit hours of the courses taken at the host institute/university under this program will be reflected on the student's transcript and will contribute to the CGPA calculation.
- b. Foreign students participating in the student exchange program may be enrolled for a full semester or a single course. A transcript with letter grades will be issued at the end of the semester. The admission offer letter for the foreign student will be forwarded to the HEC for the issuance of an NOC, in accordance with university regulations.
